DIARY NOTES

DD/S

25 August 1966

25X1C

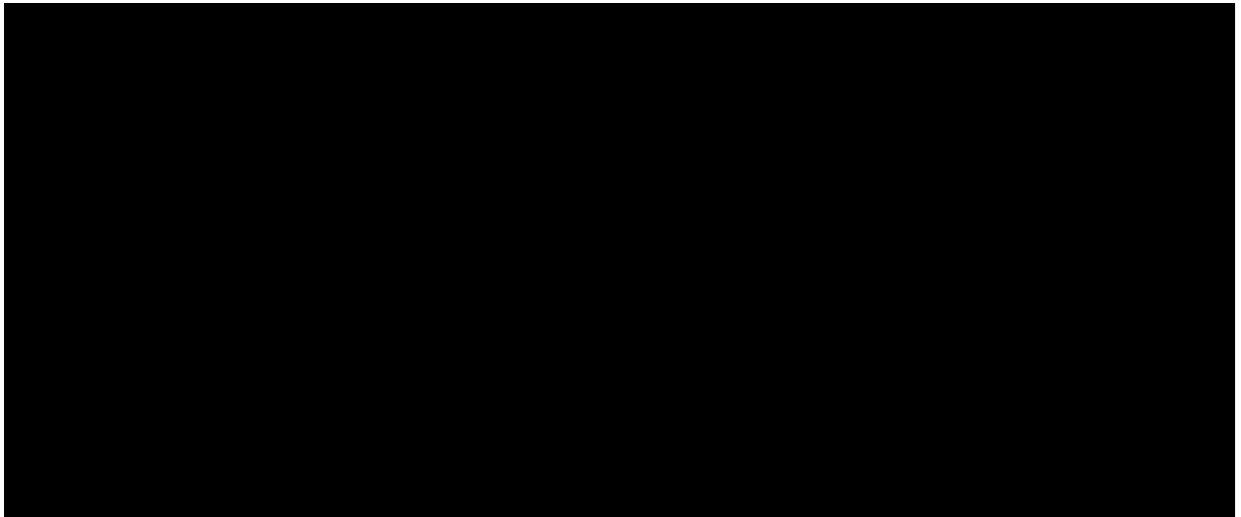

2. Commendation--Printing Services Division: Jack Smith called me to express high praise for the Printing Services Division and the extraordinary job of getting out a 500-page publication under emergency circumstances. He was most grateful for the fine work and excellent quality of the work done. He plans to write a memorandum to this effect.

3. Space Planning: Today I met with Messrs. Meloon and Blake and the Planning Staff/OL to review space plans. I think the proposal will be ready after some cost figures are added. The next step is to refine our recommendations to Colonel White and Mr. Helms.
