DIARY NOTES

DD/S

18 August 1966

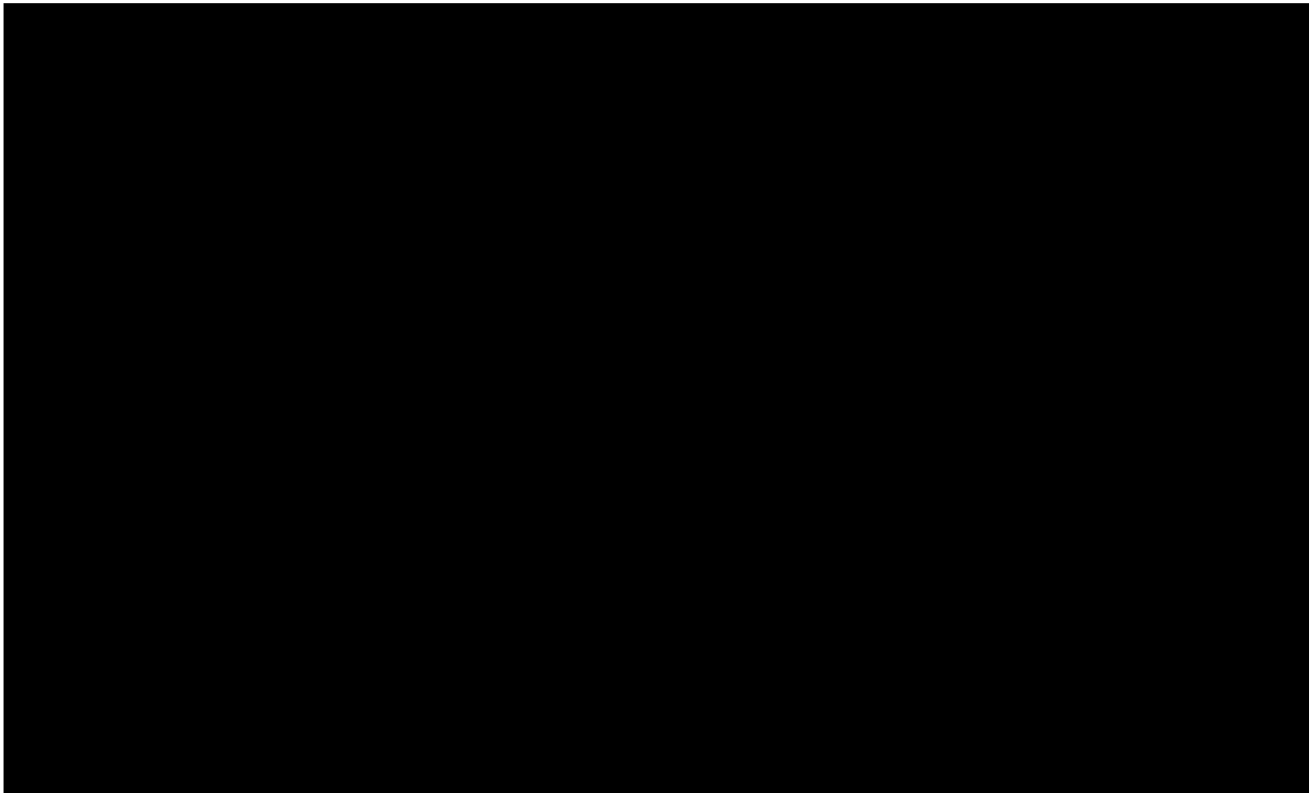

1. I attended a luncheon in the Director's private dining room with Major General Eddy and Rear Admiral Fitzpatrick who were visiting the Agency as guests [redacted] Both officers are assigned to the Joint Chiefs of Staff.

25X1A

2. CIA Motion Picture Film: In response to direction from Mr. Helms I convened a group to consider the substance of a 30-minute documentary film to be used by the Agency with private organizations. The film would be unclassified and would be used to respond to requests for speakers and would serve to project our image in the manner in which we wish to make it known to the public. A number of suggestions were offered and it was agreed that each Directorate would furnish to the Office of Training a suggested listing of items that could be included in such a film. OTR will sift through these and then we will have a second meeting of the same group to consider the combined input. I asked the group to continue as a working group in connection with this film in order to give it guidance and ensure that the substance is appropriate. [redacted] will follow up for this Office.
