DIARY NOTES

DD/S

11 July 1966

25X1A

1. Golf Driving Range in the Garage: The use of this has been extremely limited and we can use this space in the garage. I suggested to [REDACTED] that this be taken up with Benefits and Services Division and that we should remove the driving range in a quiet way about a month and a half or two months from now. 25X1C

[REDACTED]

3. DCI Inner-Office: The opening of the door between the DCI's present office and the sitting room formerly occupied by Admiral Raborn was requested by Mr. Helms but when he heard of the amount of work involved to accomplish this he decided to forego it. After looking into the matter with Logistics' people, I proposed a solution by reducing the size of the door and reversing the hinges. This would reduce the work involved by two-thirds. The DCI was informed and agreed to this which will be accomplished on Sunday, 17 July. 25X1C
