Dear Colin,

25X1A

In order to support the chine box integration effort (Contract FH-2510) under the direction of [REDACTED] it is his opinion that a certain amount of overtime effort is desirable during the early phases of drafting. I have, to that end, authorized [REDACTED] to use up to a maximum of forty (40) hours of overtime. He was further directed that, if such an authorization is not sufficient, he shall inform me of his requirements in a timely manner.

Even though there is not, to my knowledge, an overtime restriction in the contract, I must maintain control of overtime because of the extremely low funding level available for the effort and the low probability of obtaining funds during FY-67. Your corporation in helping me maintain this control is requested.

Yours truly,
