2. Retirement Inducements: Following today's meeting at which the retirement policy paper and retirement rationale were approved by the Deputies, I offered to provide to the group a refinement on retirement inducements, namely, the proposed CIA Reserve Program, a one-year trial retirement proposal and a possible selection-out system for professional officers and some specified clerical personnel. The Executive Director asked whether these papers could be ready by 1 May. After meeting with Messrs. Wattles, [REDACTED] and Powell on 29 April I advised that we would have to put this off until approximately 9 or 10 May. I set out an outline of what I wanted to be incorporated in the Reserve proposal and the one-year trial retirement proposal. Little staff work has been done on the selection-out system even though it has been broadly discussed. I asked Mr. Wattles to have a draft of all three proposals on my desk Monday morning, 6 May, and if these are OK we will clear with the Executive Director and then circulate to the Deputies for consideration next week.

2. Polygraph Validation Report--Contract with [REDACTED]

25X1A
25X1A

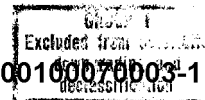

This morning we had a briefing by [REDACTED] et al on the findings of the Polygraph Research Program and a limited discussion on the follow-on contract with [REDACTED]. Some of the time was spent by the Executive Director in seeking clarification of the technical findings of the research. The difficulty was that in the technical presentation the current efficiency of the polygraph instrument was downgraded in a rather severe manner but with a view to proceeding with a contract to improve the instrumentation. Unfortunately, the downgrading carried more emphasis than was warranted and called for a lengthy explanation. As a result of the discussion there was no contention raised against the technical findings and it was felt that this easily justified the need to proceed with the [REDACTED] contract. It was unanimously felt, however, that the technical report did not properly present the part played by the polygraph in the Agency security program in a manner that would serve to make these technical findings known outside the Agency. There was no challenge to the substance of the report but simply the manner in which it was presented. It was agreed, therefore, that we would draft a third report in a summary fashion which would present the technical findings in a manner that could be used with our Security Committee, Moss Committee or the Civil Service Commission. For this purpose Security is assigning [REDACTED] and I am assigning Dave Powell who will draft this report with the assistance of [REDACTED]. While there is no great urgency to complete this it should be accomplished within a reasonably short period of time.

3. Payroll--Vouchered and Confidential: In the course of the briefing by [redacted] Compensation and Tax Division, Office of Finance, he expressed considerable concern over the increasing number of additional factors going into the payroll computers. He expressed the fear that the present system which is largely a patchwork operation could not stand the strain of additional add-on and it is possible the system might break down. I advised that the last thing that could happen in the Office of Finance and Office of Computer Services would be to miss a payroll. I called [redacted] for additional information as to SIPS planning and alternative steps to properly set up a computerized payroll system. It appears that there is no immediate solution. I am, therefore, setting up a meeting with representatives from [redacted] staff, Office of Finance and OCS to discuss this problem with a view to coming up with an answer that will assure the meeting of every payroll requirement.

5. [redacted] Case: I called [redacted] to be sure to get on an expedite basis the report and position of the Medics on this case so that we can respond to Congressman Bennett. If there is any problem we will have to make an Agency decision rather than a pure Medical decision.

He called [redacted] and suggested that he should first have a short briefing on this project so that we can determine whether or not we want a detailed review and if so what aspects are to be covered. [redacted] said he would be available for a period of time next week. I asked [redacted] to set up the format for such a briefing on a date to be established next week. We should cover this first from the historical standpoint and development of the operation into its current format stressing the national asset features and its service to Government entities in Southeast Asia rather than to just CIA. The briefing should be condensed to between 30 to 45 minutes.

23 April 1968

25X1A 1. Chain Bridge--Metcalf Property: I briefed the Executive Committee in a general fashion on the current status of negotiations with the Metcalfs for improving the Virginia end of Chain Bridge. The next step is for Dan [redacted] to contact Mr. Fugate for a highway engineer to look at the Metcalf property to see whether or not there is any possibility of a solution which will not interfere with Metcalf's plans for development of his property. The prospect of any solution is not good. When I mentioned this to the Executive Committee the Director suggested we enlist the aid of Senator Edward Kennedy and perhaps others. I asked that this not be done at this time as it would appear we are putting pressure on people who are sincerely endeavoring to assist us in reaching a solution even though it involves some sacrifice on their part.

25X1A 3. [redacted] of ONE has been asked by
 25X1A the [redacted] to participate in a seminar on long-range (year 2000)
 25X1A projections. Howard Osborn advises that there are some questionable characters

 [redacted] can make his appearance on a strictly unclassified basis but fully
 aware of some of the background problems.

25X1A 4. Savings Plan: The Executive Director mentioned that we might consider a plan (with TVA) whereby employees can invest in an Agency-operated mutual fund for savings purposes. The Executive Director mentioned

that he had this in mind a few years ago but nothing came of it. He had mentioned this to [redacted] and I suggested that [redacted] would be the man to explore the possibility of this and find out from TVA the manner of operation of their plan. It is assisted by a payroll deduction system.

5. Soviet Automobile Surveillance: Howard Osborn reported that on Saturday, 20 April, a Volkswagen bearing diplomatic plates continued to make the circle at the Agency entrance on 123 taking movies of employees and cars entering the Agency. This was identified as a car from the Soviet Embassy. I asked Osborn to put a special watch for any other incidents of this nature developing and we would decide what if anything we can do about it. I briefed this matter to the Executive Committee today.

6. [redacted] This is a marriage to alien case in which DD/P recommends disapproval. The man may be psychologically unstable. For guidance in the final decision the Executive Director asked that the Medics come up with a quick psychological assessment for guidance in the handling of this case.

DIARY NOTES

Acting DD/S

10 April 1968

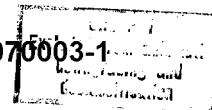

* * * * *

25X1A Mr. Richardson telephoned to advise that he had had a phone call from
 25X1A [redacted] last evening in which [redacted] informed him that he had
 bowed out of his proposed assignment as Director of Training. [redacted] indi- 25X1A
 cated that this had been accomplished in discussions with the DD/P and the
 DCI as long ago as seven to ten days. Mr. Richardson remarked to him that
 25X1A he was quite certain that Mr. Bannerman was not aware of this change.
 25X1A [redacted] stated that it had nothing to do with the time lag before he could
 take over, and that his problem stemmed from the young children in his
 new family. He proposes to go to the [redacted] where he will be a contract
 employee for approximately one year.

I called Mr. Karamessines and he confirmed that he had "just been
 talking to the Director about this" and had told the Director that he must
 get in touch with Mr. Bannerman. Mr. Karamessines indicated that this
 had come up within the last day or so and was equally a bomb to "us", as
 I indicated it was to the DD/S and Mr. Richardson. Mr. Karamessines
 said that he wished to discuss this at an early time and noted that he had
 one or two names to suggest as a replacement.

25X1A [redacted] who was in my office when Mr. Richardson called, told
 25X1A me that he had heard a rumor a couple of days ago, which he had dismissed,
 25X1A that [redacted] was going out to the [redacted] 25X1A
 [redacted]
