

30 JUN 1967

RE: Federal Records Center
Suitland, Maryland

Mr. John J. Province
Chief, Buildings Operations Division
Public Buildings Service, Region 3
General Services Administration
Washington, D. C. 20407

Dear Mr. Province:

The Central Intelligence Agency Archives and Records Center will be filled to capacity by Labor Day, 1967. We must start moving records material to the Federal Records Center at Suitland, Maryland, by 1 September 1967. We cannot start this move until a suitable personnel barrier is installed to compartment space assigned to us from that assigned to other activities.

It is requested that a steel barrier constructed of nine gauge expanded metal be erected as shown on the attached drawings no later than 1 September 1967. The cost of this work is estimated at \$10,000.

Accordingly, funds in the amount of \$10,000 have been reserved to reimburse the General Services Administration for the cost of construction resulting from this request. Our Job Order Number 67-2174 dated 22 June 1967 applies to this request and has already reached you under separate cover.

Sincerely,

[Redacted Signature]
