25 August 1965

MEMORANDUM FOR: Chairman, China Intelligence Study Group

THROUGH : Acting Chief, Collection Guidance Staff

SUBJECT : Report to the Critical Collection Problems Committee on Actions Taken to Upgrade the Intelligence Effort on China

REFERENCE : Memorandum from Deputy Director, 23 June 1965, Subject: Review of Intelligence Activities Against Communist China

1. Reference memorandum and its attachment assigned specific responsibilities to the BDI for implementing recommendations made by the CCPC to increase the quality and quantity of intelligence on Communist China. The memorandum requested that a report on actions taken and progress made be submitted by 3 September 1965 to the CIA Member of the CCPC, Miss Eloise R. Page.

2. Miss Page has requested that BDI contributions be submitted to her through this office. Accordingly, I would appreciate your contribution by COB 2 September.

3. Although reference memorandum indicated that the BDI had primary responsibility only for reporting on recommendations c and f, it would appear prudent to indicate progress made in the BDI in addressing or in preparing to address each of the other recommendations. In this connection, I have already received a contribution from the Office of Basic Intelligence covering recommendation c. It would appear that a response to recommendation a could include any activities undertaken to upgrade the China effort not specifically called for in the other recommendations.
