Admiral William F. Raborn
Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Admiral Raborn:

I am most grateful for the opportunity to meet you and your associates and to learn about your agency.

As a citizen and a journalist, I have always believed strongly in the need for an effective intelligence operation, and I have had only the utmost admiration for your agency.

As a result of my visit, those convictions have been reinforced.

All of you were exceedingly patient and generous with me. If I could ever be of any service I would consider it an honor to respond to the best of my ability.

Sincerely,

Edward O'Brien
