MEMORANDUM FOR: Deputy Director for Science & Technology

Bud:

25X1A

I note that [redacted] furnished you an information copy of his 10 February 1966 memorandum to me concerning Martin Weil's 5 February article in the Washington Post entitled "U. S. Easily Intercepts Luna Photos, But Officials Won't Admit Doing It." It seems clear from [redacted] memorandum that Mr. [redacted] has not seen or does not understand the official Agency issuances regarding contact with public information media.

25X1A

25X1A

I suggest you satisfy yourself that this situation is corrected without delay. Further, it might be worthwhile to refer to my memorandum of 26 November 1965 to the Executive Committee on press contacts and to require personnel of the DD/S&T to refresh their memories again on this subject.
