CPYRGHT

THIS ALLEGED "break-through" yesterday of cutting the manufacture of uranium and plutonium for military purposes . . . is, to say the least, too good to be true.

Perhaps I'm too suspicious, but I kind of think an old parable should be slightly altered to read . . . "Beware of the Russian, bearing gifts."

We are hearing so much about the wonderful things the Russians are doing . . . I'm getting worried.

Day before yesterday I read in a morning paper how the Russians were removing all their troops from Cuba except advisors . . . this item suggested these advisors would help us keep Castro in line!

I still can't get it through my head that the leopard changes spots, and I hear that shoe pounding loud and clear . . . and "we will bury you" still rings in my ears.

I've seen little action, but sure have heard lots and lots of words since that time.

During this same period we know all our legations and even our CIA have been infiltrated, and Russia is moving the "Berlin Wall" closer to the border, instead of tearing it down.

If Russia is so all-fired friendly . . . why doesn't she tear the Berlin Wall down . . . permit free secret elections, under U.N. supervision in East Germany regarding German unification?

Why doesn't she withdraw her aid to Cuba? Why doesn't she withdraw her trained agents ammunition, etc., from the new African nations?

Why doesn't she even pay her share she owes to the U.N.?
