**Oswald and the Russians**

The Soviet Union appears to be evolving a new public attitude toward Lee Harvey Oswald. Kremlin officials, who had been hesitant to talk about the assassination, have begun hinting that Oswald may have been an agent of the CIA or that Texas oil millionaires were behind the murder. Note: the Kremlin has refused to allow the United States to distribute a Russian-language edition of the Warren commission report in Moscow on the ground that it "slandered" the Soviet Union.
