'I'll swap my book for the Krogers'

DURING the past few weeks, here have been persistent umours that the "memoirs" of the Soviet spy Kim Philby are about to be published in he West. Philby appears to lave made a number of conacts with Western published ma arganisations, and there ng organisations, and there is also evidence that the MS has been pushed by official Russian sources.

Recently, the Sunday Times Recently, the Sunday Times cas offered the chance to publish an 80.000-word manu-script by Philby. After con-ideration, we decided that re could not justify such a step to ourselves. The juestion of financial reward cas not the decisive one— 'hilby made it clear that he cas not interested in money 'hilby made it clear that he cas not interested in money or himself. It was rather a natter that memoirs from his admitted KGB officer, ould only be a deliberate ittempt to damage Western interests, including Western intelligence organisations. However, we did take steps o ascertain what sort of nanuscript Philby was offering. It turns out to be not imply his memoirs — but ather an indictment of Western secret operations ligainsi the Soviet Union, 1945-55.

of his KGB employment and told me at one stage he had been on the telephone with his employers)

After Philby said that he worked for the KGBI took the apportunity to make my position clear: I did not propose to con-duct a formal interview in the sense of asking him a set of questions, but that I held myself free to write any account of our meeting at some subsequent meeting at some subsequent time; and that I did not think there was any point in our debating the merits or other-wise of Communism, or in my offering han any comments on the career he had chosen. He said in reply that he would assume that it was possible that I worked for some Western Intelligence service. (He subse-quently said: "I naturally took precautions against any rough stuff—you would not have got ten vards down the street.") But he seemed, at the time,

ten vards down the street, j But he seemed, at the time, quite relaxed. We met subsequently at a number of restaurants nom-uated by Philby. During these lone Russian meals vodka, wine and brandy flowed freely, and Philby taiked fengthily, even compulsively. He is clearly a sociable type of drinker and he seems to have an iron head; I could detect no change in his alertness or joivality as the watters arrived with relays of three hundred grammes of vodka or six hundred grammes of vodka or six hundred grammes of Armenian brandy.

Gerald Brooke and the rogers. Philby raised this subneed himself, spinlaneously, "There was an interesting sug-ge-tion in The Economist," he said. "The idea was that I would be prepared to withdraw my manuscript if the Krogers were exchanged for Brooke. If that were in fact a condition of the Krogers being released, of course I would withdraw my look?

I asked, "Is that a message for sameone? Do you want that passed on". Philby replied, "No, it was just an idea I had." Lasked, "Why are you so anxi-

"No, it was pist an idea I had."
I acked, "Why are you so anxious to make this exchange with the Krogers?"
Philby: "Our position is that the Krogers are innocent of the charges on which they were convicted. They were personal, not political friends of Gordon Lansdale. We don't dispute that people like Gordon and Colonel Abel were our agents, highly skilled professionals, but we cannot agree that the Krogers were the top-level agents they are being represented as, or indeed our agents at all except in the sense of being friends of Louislate's."
I asked, "Did you write Louislate's memoirs?"
Philby: "Gordon is a very balented fellow but he is no bterary man. I looked over its

hterary man. I looked over his no biterary man. I looked over his numberspt." Continuing on the Krogers, he said: "We hear that they are deteriorating in prison. krocer, we are informed, is covered in eczema. The conditions they are being held under are inhumanly severe."

I said, "I suppose a very three eve is being kept on them after the escape of your friend Riske."

riend Rlake."

Philby: "Perhaps. In an event, we consider this exchange could well take place.

Now look at the other side. It's in any this a pity about Brooke, he really was a silly fellow. He got involved with the NTS (The "People's Labour Front", a venerable Russian refugee organisation) and they gave him a list of people to contact who were supposed to be working inside the Soviet Union. We have penetrated what is left of the NTS so thoroughly that the very first person he contacted was a KG B man. All this came out at Brooke's trial and is well known in the West."

I said, "There seems to be a feeling in the West that Brooke was more or less innocently handing out anti-Communist literature and was grabbed by your people in order to exchange him off for the Krogers."

Philby: "Well, check it out with any of your Russian-speaking colleagues here in Moscow."
(1 did: Philby's version of

ing colleagues here in Moscow."
(I did: Philby's version of Brooke's activities seemed to Brooke's activities seemed to square with the reports of people who attended his trial.) Philby continued: "Now, the NTS really belongs to the CIA. It used to be financed by the SIS but it was handed over to the CIA some time in 1950. I ought to know—it was me who handed it over. This certainly makes Brooke some sort of Western agent, doesn't it? It's up to you and the Americans to decide who wants Americans to decide who wants

him back."

I said: "Are you helping things along by ill-treating Brooke, as you are reported to be doing in the West" "Philby: "In the first place Brooke is our prisoner and we are treating hum in averaging with Sainet. him in accordance with Soviet laws, not your laws. He is being treated like any other prisoner would be in his position. After all, he is in prison. You don't expect to get all this (indicating a table spread with vodka, caviare and wine) in prison. Prisons tend to be unpleasant places. That's why I always ook good care to keep out of

I asked, " Does this suggestion that you would withdraw your hook if the Krogers were exsuperiors?"

Philby: "No, it is my own idea. I feel I would like to do whatever I can perlike to do whatever I can personally to get these people out. Perhaps two for one seems a had bargain in the West, but we will just have to face the fact that the Western side always comes out worst in this type of exchange, for the simple reason that we have more, and better agents than you have. We get Colonel Abel, a first-class than, for Garm Powers, who was bary a pilot, for the simple reason that you have no one as good as Abel over here for us to catch. We will just have to face up to the facts of like."

Himself: "I love life, women and children, food and drink, I love all that and I want other people to be able to enjoy it all to the full, too" said Philby. people to ne anie to enjoy it all to the full too "said Phithy. I asked him how he folt about leaving his own family. "I suppose I am really two people" he said. "I am a private person and a political person. Of course, if there is a conflict, the political person comes first." I said this sounded one of the bleakest, saddest things I had heard anyone say for a long time. He shrugged his shoulders. I asked how he reacted to the charge that he was a traitor. "To betray, you must first belong" he said. "I never belonged. I have followed exactly the same line the whole of my adult life. The fight against fascism and the fight against imperialism were, fundament-

imperialism were, fundamentally, the same fight."

Of course, they were guilty as charged, emuggling their criticism of the Soviet Union abroad to be published. They should have got a week in jail, or perhaps a public censure from their colleagues in the Writers' Union. What's the point of sending them to a labour camp? But you have to make some allowances for what these Russians have been these the state of foreign these Russians have been through at the hands of foreign invaders—they're sensitive on the area of their own people getting in volved with foreigners. You can understand foreigners. You can understand even if you don't agree. His book. "My book is about 80.000 words long. No more than eight pages are political, in the sense of discussing the merits of Communism. Of course, many young people became Communists in the early "thirties: the question, in my case is why I remained one, and saw it through to the end, through the Stalin period and everything else. I make my position clear on these matters. The main part of my book is an account of my work with the SIS, CIA and FBI in my years in the West. I name the colleagues I was involved with, but not in an unkindly way, I hope: just setting down the facts. I think the truth should come out."

I said, "Your superiors must think this publication will help the Soviet side." Philby: "Of course: I am a serving officer of the KGB. Naturally, I say nothing about my work for the KGB in my book, and my history becomes rather general after about 1955—I have to think about protecting our own operations after that date."

of Kwame Nkrumah—not that I have anything against the I have anything against the poor chap personally, but I think we made some serious mistakes there.

"I was asked to write a paper on the African situation generally soon after I arrived in Moscow—one of my first jobs for the KGB here, as a matter of fact. I took a generally cautious line. By all means gives these new African states a reasonable amount of financial gives these new Arrigan states a reasonable amount of financial aid, and technical assistance on real projects which actually exist and look capable of shewing results. Bu I warned, don't get deeply involved. No heavy arms shipments, no complicated technical equipment needing our people to keep it running aircraft, for example. Well, we did get deeply involved, and look at the shambles that resulted — hig projects we look at the shambles that resulted — big projects we financed crumbling to pieces, our aircraft never get off the ground. Millions of roubles down the drain. I was sorry to see Nkrumah followed by the people who are in there now, but at any rate I was proved right. Our policy in Africa now is watch, help but no deep involvements. Incidentally, the Chinese seem to have done even worse than we did.
