**Despair**

GOVERNMENT in the United States appears to be entirely in the hands of the Pentagon and the CIA. They are going to get us into a large-scale war or else perish in the attempt. We are no longer a democracy, but a thinly disguised dictatorship. General Ky, the man we back in Viet Nam, said in an interview that his greatest hero was Adolf Hitler. The public and our military are being deliberately brainwashed to believe any lies handed out by our government and the press.

J. WILBUR ROTHERBY
