

LETTERS TO THE NEWS

Thong Wrong

To the Chairman of the NEWS:

I think that you do a disservice to Yale and to the principle of reasoned discussion of the very serious problems of war and peace in Vietnam when you devote as much space as you did today to the views of a man like Mr. Thong.

Mr. Thong obviously feels strongly and has seen and heard a great deal but one also has the feeling that he is on the way to losing touch with reality.

If you can follow his discussion and really feel that "He deserves to be answered," perhaps you should answer him yourself or try to.
