(Text) Djakarta, 30 June--Capt. Raimond Turco Westerling, one-time commander of the army of the heavenly host which captured Bandung in 1950, was today accused by an Indonesian radio reporter of having been assigned by the imperialists and colonialists to shadow Indonesian Foreign Minister Dr. Subandrio during his stay in Algiers and to foil the second Afro-Asian conference in Algiers.

Westerling, who is training to become an opera singer, was indirectly accused by radio reporter Darmosugondo of having had a hand in the explosion in the Algiers conference hall last week which victimized eight Arabs and two Chinese technicians. The radio reporter claimed that this explosion had been the work of imperialists and colonialists. The Indonesians hold Westerling responsible for having killed 40,000 people in South Celebes in 1948.

The Indonesian Nationalist Party newspaper SULUH INDONESIA--TORCH OF INDONESIA--today splashed the Djakarta radio reporter's claim on its front page under the headline: "Executioner Westerling Shadowing Subandrio?" The report said that Westerling's mission to Algiers had failed because he had not been admitted to the country.

SULUH INDONESIA said that the actions of Westerling, who was said to have gone to Cairo instead, were clear proof of the intention of the imperialists and their tools, the Central Intelligence Agency, to foil the second Afro-Asian conference.
