

Helm's Right to Write

SIR: Why is it that the very senators who champion the "right to dissent" as "the American way"—proclaim from the rooftops the right of the Communists, peaceniks, beatniks, left-wing professors et al to freedom of speech—protest and deny so violently the right of an American citizen to "speak up" in a letter to the editor?

Beware Mr. Helms the dagger which was missing after your meeting of apology will most assuredly be found buried deep in the back of your cloak a few months hence. Domestically, you deal not exclusively with men of honor.
