# PROCEDURES FOR CONDUCTING THE ABC OFFICE REPORTS MANAGEMENT SURVEY

### 1. GENERAL

- The reports survey is an essential step in establishing the ABC Office Reports Management Program. It provides the foundation, that is: (1) A complete description and case history of each reporting requirement, and (2) an analysis of these requirements to point up reporting deficiencies and ways to correct them. In addition, the survey will provide experience on which policies and procedures for continuing the program can be based. The importance of this survey thus dictates that persons selected to participate should have a broad knowledge of their component's reporting requirements, and be qualified to analyze them objectively for possible improvements.
- b. The following terms apply to simplify stating survey procedures:
  - (1) Required Report (Incoming Report) A report which a component requires from one or more other elements.

    The report is an incoming report to the office which requires it.
  - (2) Prepared Report (Outgoing Report) A report which a component prepares at the request of another element.

    The report is an outgoing report from the office which prepares it.

### 2. THE INVENTORY

- a. Take the following action on each current requirement for either a required or prepared report:
  - (1) Complete an original and one copy of either Required Reports Analysis Sheet, Form No. 143 (Attachment A), or Prepared Reports Analysis Sheet, Form No. 144 (Attachment B).
  - (2) To the original of each Analysis Sheet, attach one copy of each directive affecting the report, a specimen copy of the report, and any other descriptive material.
- b. It will not be necessary to furnish copies of directives (authorities) issued as Agency or ABC Office Regulations, Instructions or Notices.

### 3. THE ANALYSIS

- a. Personnel shall analyze each reporting requirement concurrent with taking the inventory. The need for required reports will be fully justified. Prepared reports shall be analyzed with a view to improving preparation procedures, and recommending to the requiring office, ways to reduce or simplify reporting.
- b. Forms No. 143 and 144 contain questions which establish criteria for analyzing reports. Additional and more detailed guides are provided in Attachment C, "Analyzing Requirements for Administrative and Management Reports."
