MEMORANDUM FOR DIRECTOR, CIA RECONNAISSANCE PROGRAMS  
DIRECTOR, NRO PROGRAM D

SUBJECT: U-2R Management Plan

25X1

REFERENCE:  0020-67, dated 10 February 1967

I have reviewed your memorandum setting forth the management concept for U-2R acquisition and establishing the aircraft base-line configuration.

I am in agreement with your memorandum except for one point: the authority to approve configuration changes affecting aircraft performance should remain the responsibility of the DNRO, upon the recommendation of the U-2R Executive Committee for Development. Your plan should be amended accordingly.
