

STATINTL

14 April 1973

I am sending you an additional ad pertaining to the "Liberator" pistol along with documentation that it is no longer on the list of the National Firearms Act. This might make it easier for your friend to obtain one.

Also, I am sending along a letter from the H.P. White Labs which makes mention of a 9mm model (also mentioned in the ATF letter). I wrote to this Mr. Strebe twice and received no reply. Would it be possible for your office to query him, from a historical standpoint, in an attempt to obtain specifics about this 9mm version of the "Liberator" and how many were made and when? It appears I don't have enough "Horse Power" to obtain his reply. Possibly, this 9mm version was for OSS as a try out and didn't make the grade. I'm certain the information that Strebe has would be a valuable piece of developmental history concerning this weapon.

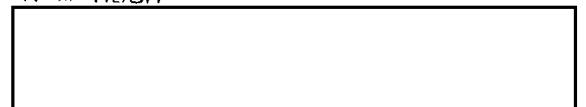

If you are able to obtain any information from him I'd be very grateful if you could pass it on to me. It would be much appreciated.
