Journal - Office of Legislative Counsel  
Friday - 7 September 1973

Page 4

25X1  
10. (Internal Use Only - JGO) Met with Herb Roback, Staff Director, House Government Operations Committee, and returned to him the Committee file on [redacted], an Air Force officer missing in action on a flight over Laos on 24 December 1965. Although I was unable to provide any substantive information on the case, I indicated other possible sources of information that had not been explored.

STATOTHR  
With regard to SAT I told him that [redacted] is negotiating with the intervenors and his lending facilities and that a possible final resolution is expected within the week.

11. (Confidential - JGO) Met with Bill Hogan, Intelligence Subcommittee<sup>25X1</sup> staff, House Armed Services Committee, and closed out his earlier request for any information that we might have concerning [redacted]

[redacted] No further action is indicated.

Hogan told me that Chairman Nedzi asked if a date has been set for return of a sterile version of the Committee transcripts of the Agency Watergate hearing. I told him that to my knowledge we have not undertaken any such review and that we have no present plans to do so. I thought it had been agreed that the transcripts would not be published. Hogan asked if I would take this up directly with Chairman Nedzi on Monday.

I also received from Hogan for our information two more postcards to the Committee from [redacted] of Salt Lake City, Utah. STATOTHR

12. (Secret - JGO) Talked to Bill Ashworth, Senate Foreign Relations Committee staff, who told me that he did not see a need at the present time for a formal briefing of the Arms Control, International Law and Organization Subcommittee on the recent advances in Soviet strategic weapons but he would appreciate if I would come by early in the week and bring him up-to-date. Carl Duckett, DDS&T, has been advised.

13. (Internal Use Only - JGO) Talked to Angela Morris, Secretary to Jim Lowenstein, Senate Foreign Relations Committee staff, who told me that the itinerary for the Lowenstein/Moose trip to Europe has not been finalized.
