8. [redacted] Met with Marian Czarnecki, Chief of Staff, House Foreign Affairs Committee, and gave him a copy of the [redacted] TASS report of the CIA testimony on Chile. Czarnecki told me that the Chairman is again out of town and he had not had time to return Mr. Colby's call before he left the city. Although a meeting between Dr. Morgan, Representative Mailliard, and Representative Fascell with Representative Harrington is intended, Harrington has been out of the city and it was not possible for the meeting to take place prior to Harrington's departure from the country for Chile last night. He has been out of the city since sometime last week. Chairman Morgan cancelled Mike Finley's travel to Chile with Harrington. I also discussed with Czarnecki in some detail other possible areas that had occurred to him on the subject of release of the transcript to the press.

9. [redacted] Called Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, in response to his earlier call inquiring about the basis for the U.S. "alert." I told him there had been some activity on the part of Soviet military elements which had caused some concern but there might well be other information of a diplomatic nature with which I was not familiar which could also be a factor. I suggested he might get a more up to date and complete rundown on the military situation from the Defense Department.
