4. (Confidential - GLC) [redacted] IRS/DDI, called regarding a request he had received from State Department. State is interested in showing an Agency handbook on Portuguese Guinea to a member (unnamed) of the staff of the House Foreign Affairs Subcommittee on Africa at a meeting this afternoon. I suggested that [redacted] tell State that it is our practice not to display intelligence documents to congressional staff members and we would prefer that it not be done in this instance. I noted that this merely would whet the appetite of the staffer for a copy of the document and possibly result in his mentioning it to some of his congressional staff colleagues.

5. (Confidential - GLC) Picked up from Jack Norpel, Senate Internal Security Subcommittee staff, an item of interest to [redacted]

25X1

6. (Unclassified - GLC) James Calloway, Senate Appropriations Committee staff, called me late in the day to say Chairman McClellan suggested 10:30 a.m. Friday, 26 January as a time for the Director to meet with him and indicated the Senator would prefer to make this a private meeting between the Director and himself.

7. (Internal Use Only - RW) George Murphy, Joint Committee on Atomic Energy staff, called regarding an article in the Washington Post of 19 January reporting a talk in Peking between Chou En-lai and Takeo Kimura, of Japan, where Chou En-lai suggested that Japan needs "the American nuclear umbrella" for the time being to protect it against the Soviet Union. Murphy wanted the complete text of this speech if it was available. After checking with [redacted] FBIS, I advised Murphy's office that the story of this meeting was in the FBIS White Book of 18 January but there had been no text released which was not unusual in this type informal speech.
