

Journal - Office of Legislative Counsel
Tuesday - 1 May 1973

Page 2

4. (Internal Use Only - LLM) Called Ted Kazy, House Post Office and Civil Service Committee staff, to be sure that the Committee was aware of the action by the Education and Labor Committee on H. R. 4757 which, among other things, would place all Federal employees within the minimum wage and maximum hour and other provisions of the Fair Labor Standards Act of 1938 without regard to Title 5 of the U. S. Code which currently covers these matters for most Federal employees.

Later John Martiny, Chief Counsel of the Committee, reviewed with me the Committee's efforts on jurisdictional grounds to get Chairman Perkins to back off in these areas, but he was not at all optimistic that the Post Office and Civil Service Committee would prevail on jurisdictional grounds. He said the Civil Service Commission is also opposing the bill and that it is just possible that the problem will become moot if Representative John Erlenborn (R., Ill.) succeeds in substituting a narrower bill on the House floor (see the file on S.1861, 92nd Congress).

5. (Unclassified - RJK) Received a call from Chris Holmes, on the staff of Representative William Mailliard (R., Calif.), who asked for information about the Agency appropriations process to answer a constituent request. The oral response I provided was sufficient and I promised I would drop an Agency pamphlet by his office for his further information.

6. (Unclassified - JMM) Made arrangements for Senator John Stennis and Jim Woolsey, Senate Armed Services Committee staff, to visit Headquarters tomorrow for lunch with the Director.
