DIARY NOTES

A-DD/A

29 August 1953

1. General Cabell wants to be cut in on the [redacted] project as soon as it has been reinvestigated in order to make recommendations and decisions. From the cable traffic that we have seen it appears that others in addition to [redacted] may be involved in this overobligation and unauthorized expenditure of funds.

25X1A9a

2. [redacted] returned three Board proceedings which were conducted under the old Loyalty Program. In the event that they are to be approved, General Cabell wants to know whether they still have to be readjudicated under the new procedure. If so, in view of the long delay since the Boards were held he believes that we should submit the readjudications at the same time we submit the proceedings. He also wants information as to what we now furnish the Civil Service Commission, either under the old or the new procedures. In future cases where Boards are recommended he wants positive recommendations as to whether the employees under consideration should be suspended.
