1. Talked to [REDACTED] about the memorandum concerning [REDACTED] advances. He and the Comptroller believe that all of the information which we need to present this case to the Director is already on file in the Agency. I offered him suggestions as to how Mr. Wisner's memorandum might be re-written to take care of this and asked that action be expedited.

2. Talked to Mr. Pforzheimer about Employment Review Board cases. There is only one possible case pending. The General Counsel doubts that the evidence is sufficient to warrant formal Employment Review Board proceedings. I asked Mr. Pforzheimer to tell Mr. Houston that we would like to have this cleared up by the end of next week.
