1. [REDACTED] was in to discuss a number of items with me:

a. The first item was the possibility of providing relief to Case Officers under nonofficial cover who, of necessity, met their contacts in hotel rooms over periods when it should be reasonably expected that they would have a meal. There is no problem here when people are in a travel status; when they are not in a travel status, however, there is a question as to whether the Agency should pay for their meal. Vernon wished to study a proposal which would allow such an individual, say, 15 per cent of the normal subsistence per diem for breakfast, 20 per cent for lunch, and 25 per cent for dinner. I told him that this was O.K. in principle and that I would like to consider it again after he had staffed it out.

c. He referred to the paper written by [REDACTED] on income tax and seemed to have some reservations with regard to bringing a cleared man from the Internal Revenue Service into the Agency. I asked him to check on the status of this matter inasmuch as I haven't heard anything on it for several weeks.

d. He discussed the possibility of transferring [REDACTED] to the SSA Staff. I told him that I had no objection and authorized him to go ahead and negotiate the matter with [REDACTED]

2. Matt Baird was in to discuss several items:

a. He believed that the Real Estate and Construction people at Headquarters were taking much too long to review the plans [REDACTED] and that the Project could be speeded up if they acted faster. (I want to discuss this with Jim Garrison.)

c. Matt advised me that Mr. Kirkpatrick had been in touch with him and asked that he supply the names of all Paramilitary types in the Agency. In connection with this request Kirk indicated that the Director had instructed his Reorganization Group to find a way to separate PM activities from the rest of the Agency and install them in a separate base.

d. He reported that he has made no further progress with the Department of Defense in connection with Recommendation No. 13 of the Joint Study Group but assured me that the ball was in the court of the Defense Intelligence Agency.

3. [redacted] was in to talk with me about the [redacted] communications relationship, and it was my understanding that the Bureau of the Budget would take the initiative in forming a committee to work on this within the next few days. I told him that I thought that this was ^{essential} since we must have a concrete proposal to discuss with appropriate congressional committees as soon as possible. 25X1C H

4. Bill also brought to me a reassignment paper which involved the extension of [redacted] in Europe for another year. This was because of the ban on dependents travelling to Europe and [redacted] reluctance to separate families. I told Bill that I would approve of this paper but that the Office of Communications and Jack [redacted] should understand that it might not be possible to get Jack into the National War College the following year, although I would certainly try. 25X1A9a
