2. I met with Emmett Echols, [redacted] to discuss integration of personnel information. I left with them the proposed Agency notice which I had drafted and asked them to give me their views on it within a few days. Publication of this will be a rather major step and will undoubtedly cause some concern within the Agency. Accordingly, I propose at the right time to discuss this with Mr. Kirkpatrick and General Carter and, if they approve, to recommend that it be tabled at an Executive Committee Meeting and later possibly explained at a Senior Staff Meeting.

3. I also talked to Emmett Echols and [redacted] about the following:

25X1A9a

a. I have a continuing concern that there is no established system in the Agency whereby a small but important number of people can be rotated among major components or even within major components before they reach such senior grades as to make such transfers extremely difficult if not impossible. I have asked Emmett to develop a questionnaire for presentation to the Personnel Advisory Board which poses questions as to whether what we are doing is right and, if so, whether it is enough.

b. I talked with Emmett and Harry about the current activities of the Personnel Advisory Board and the Scientific and Technical Personnel Advisory Committee. I told them that it was my impression that these committees were not active enough, that I considered them to be extremely important, and that we could not allow them to drag along.

25X1A9a

a. One, I had discussed this matter with [redacted] about two weeks ago and offered to discuss it with him in any detail at any time.

25X1A9a

b. Two, since I had not heard from Tom I assumed that this matter had been laid to rest until today.

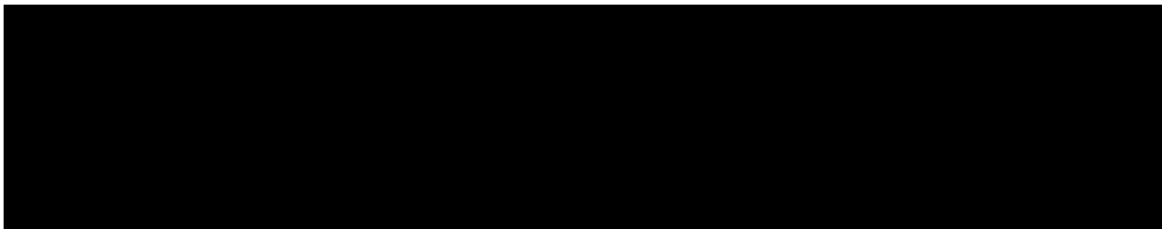

c. Three, I see nothing to be gained by [redacted] discussing this decision with DD/P personnel.

25X1A

d. Four, I again offered to discuss the matter with Dick Helms or Tom at any time.

Dick said that he would "regroup" and be in touch with me again if necessary.
