DIARY NOTES

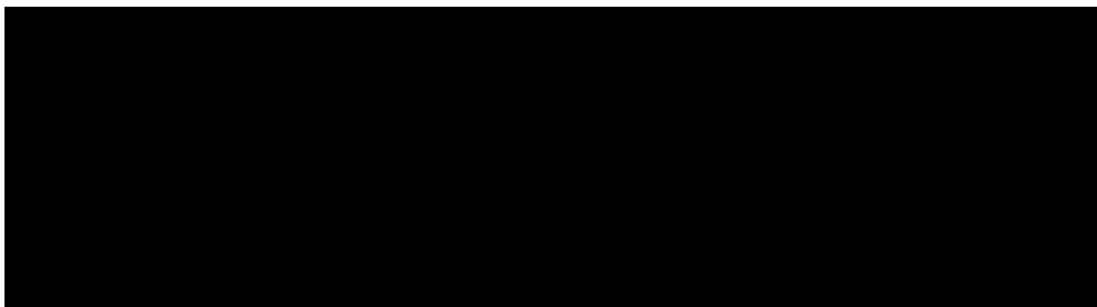

25X1A

DD/S

14 October 1964

1. At the Executive Committee Meeting this morning:

25X1A4a

b. I proposed that we write a letter to the Fairfax County Planning Commission expressing our support for their zoning policy, which was approved by the Board of Supervisors on 15 July 1964, and opposing the construction of high-rise or medium high-rise apartments in close proximity to our Headquarters building. General Carter wanted to discuss this with the Director and said that he would advise me. Later General Carter returned my proposed letter to the Chairman of the Fairfax County Planning Commission and advised me that he had cleared it with the Director. The Director said that this letter was certainly all right although he wondered whether it was strong enough; he wants to fight the proposition. I told General Carter that I thought this letter was adequate for the Planning Commission and that we could write a stronger one to the Board of Supervisors should this become necessary. He told me to fight the rezoning and not to hesitate to use the Director or the Director's name should it become advantageous to do so.

H

2. I telephoned Sutton Jett, Director of the National Park Service, to inquire whether he was making any representation against the proposed high-rise apartment near our entrance. He was not aware of a hearing scheduled for 19 October but said that he would get right after it and that he would certainly be inclined to make some representation if the apartment would be located within one-half mile of the George Washington Parkway. I urged him to do so and offered to supply any further information which we might have.

H

3. Bob Fuchs reported that he and Emmett Echols have arrived at a tentative agreement with regard to the early retirement procedures which

would separate the fiscal and other aspects of the program, the fiscal aspects remaining in the Office of Finance. He thought that I should be briefed, and I agreed. In connection with this agreement Emmett raised the question of whether [REDACTED] would be the best individual to run this program. Bob pointed out that he has a problem with Frank and would like to have us place him somewhere else not later than 1 November. I told him that I would look into this without delay.

4. Alan Warfield was in to discuss several items.

a. Alan believes that the Office of Logistics is making substantial progress with the interested offices in implementing the procurement policy which General Carter has not yet signed, and he suggested that we drop the whole question. I told him that as of Monday, 12 October, I had asked Mr. Kirkpatrick to get this paper signed but said that, if General Carter did not do so, I would not pursue it.

b. I agreed with Alan on the following general outline of reassignments:

25X1A9a

This is obviously a fairly long-range plan.

c. I talked to Alan about promotions in the Office of Logistics, and he told me that he has decided to hold them up except in very outstanding cases, of which he thinks he has only one at this time-- [REDACTED]

set up a project to handle our language stable. Frank was sympathetic with the idea but felt, as I do, that the Agency should give me some policy guidance on whether these proposals are looked upon favorably as a matter of principle. He undertook to obtain such guidance within the next few days, and I sent John Clarke a copy of Matt Baird's memorandum so that he will have something more specific to discuss with Mr. Kirkpatrick and/or the Director.

8. At the Executive Committee Meeting this morning:

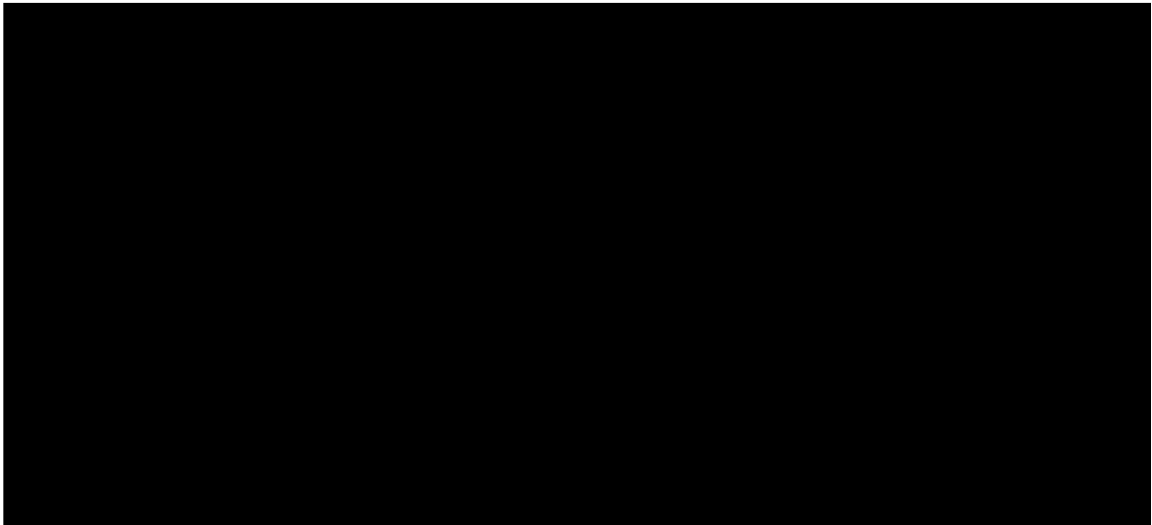

25X1A9a

b. Larry Houston reported that our early retirement bill had been signed. The White House wishes to keep it quiet for the moment, however, but intends to make some announcement about it this afternoon.

9. I advised Matt Baird that I had briefed Mr. Kirkpatrick on General Carter's reaction to the [redacted] case and that I was withholding further action pending Kirk's discussion of the case with General Carter.
