3. I talked to Mr. Kirkpatrick about the [redacted] case. He was not very sympathetic to [redacted] and said that the latter doesn't need the money. However, he had no objection to my approving the request to waive the Agency training agreement in this particular case if I thought that it was justified.

4. [REDACTED] advised me that the Director signed the letter to the Comptroller General concerning retroactive salary increases and that it has been delivered. John anticipated a favorable response to everything except retroactive pay increases for our executive pay positions. I furnished him copies of some earlier correspondence with the President and the Bureau of the Budget on this subject which, I believe, lends support to a retroactive adjustment.
