LIAISON Jim Michie, Senate

Judiciary Subcommittee on Administrative Practice and Procedure staff, called and posed several additional requests to the letter to the Director from Senator Edward M. Kennedy (D., Mass.), dated 25 September 1975. Michie asked that we provide the 1963 Inspector General's report on drugs; the name of the present Chief, BAB/OTS in order that they may contact him; and asked that we process necessary security clearances if any of the material that the Agency must provide is classified. I told him I would check and let him know.

25X1 8. [REDACTED] LIAISON Took a call from James Michie, Senate Judiciary Subcommittee on Administrative Practice and Procedure staff, who wanted two things: 1) contact with the Chief, Behavioral Activities Branch, and 2) some idea how we were planning to respond to Senator Edward Kennedy's (D., Mass.) letter of 25 September. With regard to the latter, I said we would respond in part as some of the questions will take more time because files were not available. Furthermore, he will be competing with the Senate Select Committee which is also going into the same area at the moment. In any event, he will not get all the answers by 3 October. I added that my boss hasn't decided just how much detail we will provide his Subcommittee at this time. As to the Chief, BAB, I said we do not usually give out names but I will check and see whether it will be appropriate for Michie to talk to him. He also wanted me to add Boston Psychopathic Hospital to the list of institutions in paragraph 5 of Kennedy's letter.

25X1 9. [REDACTED] HEARINGS Received a call from Walter Sheridan, Senate Judiciary Subcommittee on Administrative Practice and Procedure staff, who said that Chairman Edward M. Kennedy (D., Mass.), was planning hearings on 8 or 9 October on behavioral and drug experimentation involving human subjects. They will want a witness from CIA and DOD. He said we should get a letter some time today or tomorrow naming the witness and the time frame involved. I indicated that Senator Frank Church's (D., Idaho), Senate Select Committee, might be having hearings on the same topic in the next few days, but that didn't bother him. He didn't have any more information and explained that he was just an Indian when I said he wasn't very helpful.

25X1 10. [REDACTED] LIAISON Irene Margolis, Staff Director of the Separation of Powers Subcommittee, Senate Committee on the Judiciary, called to clear up some final details for the full committee report on the Earl Silbert nomination earlier this year. The Agency provided information on the Agency's cooperation with the U. S. Attorney's office during the Watergate investigation.
