1.

BRIEFING I accompanied

25X1A

Chief, Africa Division, to a briefing of Representative Dale Milford (D., Texas) in his office on all aspects of the Angola situation. See Memorandum for the Record.

Milford brought up the subject of his planned trip to Australia, New Zealand, and Indonesia, which is planned tentatively for 3 - 17 January 1976. He will be travelling with the House Armed Services Committee but will have his own separate schedule.

25X1A

He plans to leave for Texas as soon as Congress adjourns so the briefing will have to take place prior to that time. I told him I would discuss the matter and get back to him.

I later called Milford's Administrative Assistant, Dick White, to set up a time for the briefing. It will be given on 17 December at 1430 hours in Milford's office. Security will sweep and monitor. The briefing will be handled by Les Dirks, C/OD&E/DDS&T.

2.

BRIEFING I accompanied

Chief, Africa Division, to a briefing of Senator Strom Thurmond (R., S. Car.) on all aspects of the Angola situation. At the outset, Senator Thurmond called in three members of his staff to sit in on the briefing. However, I mentioned to Edward Kenney, on the staff of the Senate Armed Services Committee, that certain information that we were going to provide should be given to only the Senator. Kenney mentioned this to the Senator and he asked the staff members as well as the secretary to leave, which they did.

3.

LEGISLATION Called Jim Oliver, OMB,

to report I had completed the paper on legislation affecting the Agency that he had requested, but that I could not have it delivered until tomorrow. He indicated that would cause no problem.
