## INTRODUCTION

This third issue of the series "International Communist Movements" covers the period 1 September 1948-1 January 1949. Individual travel movements occurring in the preceding period but reported too late for inclusion in the first and second issues are listed under the individual's name in Section B. Addenda to the meeting sections of the first and second issues are appended to this report in Section C. Abbreviations are set out in Section D. An alphabetical name index covering the period 1 January 1948 - 1 January 1949 is appended in Section E.

### A. MEETINGS

1. National Party Congresses continued to be held at the rate of at least one per month. The Polish and Bulgarian Congresses carried out the program for Party solidification and absorption of the Socialist Parties which began to take shape in the satellite orbit early in 1948 and continued throughout the year - the Unity Congress of Socialist and Communist Parties, Rumania, February 1948; Unity Congress of Socialist and Communist Parties, Hungary, June 1948. With the 9th Congress of CP Czechoslovakia slated for May 1949, and with the broad outlines of Party policy fixed, no National Party Congresses can be normally expected in the Soviet satellite area until 1950 - according to Party statutes, National Congresses are to be convoked every two years.

In the immediate future, then, non-satellite, ranking Party leaders will no longer be able to travel into the satellite orbit as delegates to National Congresses where they may unobtrusively and securely meet with Soviet representatives - the Union Congress of Polish Workers Parties, e.g., was attended by representatives from almost every European Party, CP Brazil, CP Israeli, and by

CPSU representatives. Instead, they may, in the future, either attend meetings of international front organizations in the satellite area, or, which is more likely, simply travel individually without any ostensible purpose, as they have done in the past (see below, under B).

The Party Congresses held in the current period bring the number of those held in the entire year to fifteen, most of which (11) were convoked by European Parties - Italy, January 1948; Rumania, February 1948; Great Britain, February 1948; Sweden, May 1948; Belgium, May 1948; Hungary, June 1948; Finland, September 1948; Austria, October 1948; Albania, November 1948; Poland, December 1948; Bulgaria, December 1948.

The Far East was represented by one Congress (India, February-March 1948), and Latin America by two (Venezuela, August 1948; Cuba, November 1948). (The 5th National Congress of CP Yugoslavia, July 1948, was not attended by foreign delegates, and is therefore not significant in this context).

Considering the fact that several major Party Congresses were held in Europe in 1947 (e.g. Great Britain, February, March 1947; France, June 1947), the first round of European postwar Party Congresses has been generally completed in 1948, with the exception of minor Parties (e.g. Denmark, Iceland, Luxembourg, Trieste) and underground Parties (Spain, Greece). A few Parties (Czechoslovakia, Great Britain, Hungary, Sweden) even convoked their second biennial Congress since the end of the war. However, it is not surprising that the European picture is not duplicated in other continents - in the Far East CP China has been pre-occupied with the civil war, and the other Parties are largely illegal or semi-legal. The status of many Parties in Latin America has been precarious, and the Parties of the Middle East are similarly exposed to police pressure.

Indications are that the CPSU may convoke its 19th Party Congress in 1949 - the 11th Komsomol Congress and the 10th Trade Union Congress have already been convoked. If forecasts are accurate the Congress of

CPSU will be a major event. It will be interesting to see whether foreign delegates will be invited to attend - we are not aware of any precedents in the past, and our guess is that satellite Parties but no other foreign Parties will be represented, in order to avoid the impression that non-satellite Parties are Soviet controlled.

2. Regional Meetings occurred more frequently in the current, than in the previous periods. It may be that the Parties are heeding the call of the Cominform for "closer co-operation" - since the founding conference in 1947 the Cominform as well as the Soviet press has overtly advocated a policy of greater inter-Party co-ordination.

a. Europe: The conference of Scandinavian Communists (Oslo, September 1948) apparently grew out of a similar Scandinavian Conference in Oslo, February 1948 (see International Communist Movements, 1 January - 1 May 1948) and similar meetings may be expected for the future. If further information is received, it may become somewhat clearer whether or not the "Cominform" is organizing the radicalization of Scandinavian Parties by way of supporting the "internationalist" fractions, and to what extent Scandinavian Parties are building-up a clandestine action (sabotage) apparatus. Rold Halvorsen (CP Norway) was reported absent from the conference - he was in Prague, allegedly to confer with a Cominform official. However, while his trip to Prague is confirmed, the question whether he talked to a Cominform functionary remains open - he may have conferred with a Soviet representative instead.

b. USSR: The most important regional meeting in the satellite orbit was the meeting of satellite leaders with Stalin at Sochi (Sept 48). Previous doubts whether the meeting was held are no longer valid. Although no first hand reports on the meetings exist, informed guessers claiming that the establishment of closer economic ties was on the agenda, have been proven right - the establishment of a Soviet-

satellite Economic Council at a similar meeting in Moscow (January 49) probably was discussed at Sochi.

c. Latin America: The meeting in Mexico (Sept 48) is noteworthy in connection with other reports claiming that the Latin American Parties are planning to set up Federations on the model of the regional organizations favored by the Comintern. The Parties of Ecuador, Venezuela and Colombia have been mentioned specifically as future partners of a Federation. There is nothing particularly "illegal" in this possible revival of a traditional pattern - it may be merely an organizational formalization and intensification of already existing connections. Further, it is by no means definite yet whether Federations have been created. More concrete evidence is needed.

3. Participation of foreign delegates at meetings of a Central Committee has been illustrated again by the presence of a delegate of CP France at the session of the CC/CP Algeria (Oct 48). We recorded a similar case in April 1948 (see "International Communist Movements, 1 January - 1 May 1948") when foreign delegates attended the meeting of a sub-commission of CC/CP France, Paris. The current case further illustrates how a colonial Party is controlled by the mother Party, in this case, CP Algeria by CP France via a delegate from the French CC.

4. Cominform meetings have been reported en masse, and are included in the current report as "rumored" in order to emphasize that information concerning a Cominform meeting should be scrutinized very carefully - none of the various "rumored" Cominform meetings have been confirmed, and it is not believed that they took place. There are various pitfalls in reporting a Cominform meeting, the basic error being that the Cominform is still over-estimated as an international organization. There is no reliable evidence showing that the Cominform is more than an editorial office which publishes a newspaper. On the contrary, there is reliable evidence showing that the Cominform is not an international organization of clandestine significance. There is therefore no reason to expect frequent "Cominform meetings" - the fact that at the June 1948 meeting the resolution against CP Yugoslavia was

made, signifies merely that the Cominform was used as a publicity medium for a decision actually made by CPSU before this meeting. It is probable that "Cominform meeting" will again be used to announce an important theoretical or organizational decision previously made by CPSU, but such an occasion may not arise more often than once or twice a year, if at all.

Another error, made frequently by sources of information, consists in the tagging of "normal" Party meetings as Cominform sessions. Journalists often receive news that a Communist leader is supposed to go into the satellite area, and jump to the conclusion that a Cominform meeting is afoot. Professional informants take up such rumors, and peddle the "news." Anti-Soviet propagandists often fabricate similar "information." It is therefore absolutely essential to know the exact origin of the information - only sources with extremely reliable and high-level connections should be accepted.

5. Meetings of Front organizations account for about half of the meetings listed - the usual ratio. WFDY and its affiliates were most active. In the wake of the World Congress of Intellectuals for Peace and Democracy, Warsaw, Poland, August 1948, several new national fronts appeared in order to re-inforce the Communist "peace offensive," e.g.,

National Congress for the Defense of Peace and Freedom, 24 November 1948, Paris.

Intellectual and Literary Congress for Peace, originally slated for January 1949 in Mexico City, but apparently postponed. Roberto Lorena (CP Brazil), Enrique Gil Gilbert (CC/CP Ecuador) and Juan Marinello (President/ECF Cuba) made extensive tours of Latin America in order to organize the congress.

World Congress for Peace, scheduled for February, 1949 in New York.

6. The following meetings are already scheduled for 1949:

19 January 1949 - Intellectual and Literary Congress for Peace, Mexico City

Early 1949 - SEA Women's Conference, Calcutta, India

Early 1949 - National Congress of Women, Havana, Cuba

Early 1949 - National Congress CP Norway, Oslo

February 1949 - World Congress for Peace, New York

24 February 1949 - 11th Komsomol Congress, Moscow

19 April 1949 - 10th Congress of Trade Unions, Moscow

25-29 May 1949 - 9th Congress CP Czechoslovakia, Prague

Summer 1949 - World Congress of WFDY, Paris (?)

July 1949 - 6th National Congress FCC, Colombia.

#### B. TRAVEL

1. Recurrent and reliable reports to the effect that non-satellite Communists meet Soviet representatives most frequently in Prague and Warsaw to receive instructions, are supported indirectly by movements reflected in the destination index (see Section B, part 2):

Prague: During the period covered, the following foreign Communist leaders came to Prague without any ostensible connection with a Party meeting or an international meeting:

CP France; CACHIN and MARTY (#160, 168)

~~SECRET~~  
Sanitized - Approved For Release :  
CIA-RDP78-00915R000100230001-4

CP Greece: GRCZOS, ROUSSOS, VEPTAS, ZACHARLADES  
(#198, 205, 207, 209)

CP Italy: BERLINGUER (#226), G. FAJETTA (#229),  
PALERMO (#230)

CP Norway: HALVOREEN, Roald (#255)

CP Netherlands: DE GROOT (#249)

CP Luxembourg: URBANY (#241)

Further, Prague figured again as a stopover for trips to Moscow - see the record of two Latin-American Communists, ECHEVERRIA, Rafael (Ecuador, #136) and LEON, Carlos Augustus (Venezuela, #367)

Warsaw: During the current period, the heavy influx of foreign Communists explains itself by the fact of their attendance at the Union Congress of Polish Workers Parties (December 1948).

2. Paris figures large again as a destination point, but most of the trips can be explained, at least superficially, by the attendance of meetings. Individual travel from Latin America, not connected with meetings, was very light (see #58, 84, 85, 86, 87).

3. Heavy traffic to Hungary and Mexico can be accounted for by Party and Trade Union meetings.

4. Movements of leading foreign Communists into the USSR, with the exception of the Sochi meeting, could not be detected reliably, on the basis of available evidence. As usual, VCKS arranged tours through the USSR, but, again, there is no evidence indicating that these tours were connected with Party business.

5. Confirmation and further information is requested on the following travel items:

Austria #21, 23, 24, 26, 27, 28

Bolivia #50

Thorez, Cachin, and Duclos put in an appearance but no French CP official met the Belgian delegation at the station which caused a great deal of comment. Delegation left for Brussels evening of 5 Sept 48.

Dag</u> clerk)	Three meetings were held with the purpose of final discussions on methods of aligning Scandinavian Communist Parties with the Cominform. The group allegedly met without the knowledge of other members of their respective Parties whose "nationalist views" were in conflict with this pro-Cominform group.  The meetings were expected to decide definite policy with regard to the Cominform, but final action was postponed because of the failure of Roald Halvorsen (Vice-chairman, CP Norway) to return from Prague, where he allegedly went to receive directives pertinent to Scandinavian membership in the Cominform.

8-14 Sept 48	Far East Cominform Meeting	Pyongyang, North Korea	Unidentified representatives from: China Japan North Korea USSR	This is the second report to be received mentioning North Korea as the meeting place for a September session of the Far East Cominform. However, other reports have mentioned Harbin, Manchuria, as the location of a meeting and one described a June meeting at Khabarovsk, USSR. It is possible that some type of regional meetings have been tagged as Cominform sessions. In view of the confusion about meeting places, the reported designation of Pyongyang as headquarters for the Far East Cominform is also open to question.
8-21 Sept 48	3rd session of Executive Council of IUS	Paris, France	USSR - Kuznetsov, V. V. (Pres, AUCOTU, head of delegation)	It was decided to hold an international students festival in the summer of 1949 under the banner "The Unification of the Democratic Students for the Struggle for Peace". Organizations from Iraq and Northern Korea were admitted to the IUS, but Austrian and Canadian groups were refused admittance as "undemocratic". Josef Grohman (Czech) was reelected Pres of IUS.

A Tass comment admitted that there was considerable "strife" during the meeting.
11 Sept 48	Meeting of VVN (League of Nazi Persecutees), called by International Federation of Former Political Prisoners.	Berlin, Germany	Spain - Lorenzo, fnu USSR - Shigarev, Major General  Unidentified delegates from: Austria Czechoslovakia Denmark France Yugoslavia Iceland	No further details are known, but the meeting itself was confirmed.

Dimitrov - made no public appearances from 9 Sept until 24 November when it was announced that he had returned from "a rest." Rumors during that time persisted that he was in USSR. 2. Gottwald - was definitely in USSR. He was reported "abruptly" summoned to Moscow and left Prague 13 Sept. He was reported in the Crimea 22 Sept where "he was vacationing."
