INTERNATIONAL ASSOCIATION OF DEMOCRATIC LAWYERS (IADL)
(Organized in 1946)

A. Headquarters Address:

60 Avenue Legrand, Brussels, Belgium (set up in 1951)

234 Rue du Trone, Brussels, Belgium

(Both addresses appear in publications as the "Secretariat", but the Rue du Trone appears to be the relatively new editorial office)

B. Regional Offices:

1. Office-apartment of Secretary General Joe Nordmann
19 Quai de Bourbon, Paris, France (This office ostensibly closed when IADL headquarters was expelled from Paris in 1951)
2. Office of Martin Popper, 160 Broadway, New York City
(1946)
3. Office of Prof. Marian Muszkat, University of Warsaw
Skrz.poczt (POB) 240, Warsaw, Poland

The latter two offices were liquidated in 1951 and the entire agenda moved to Brussels. IADL voted to move to London in 1950, it was still under discussion in 1952, but plan was abandoned for unspecified reasons.

C. Claimed Strength:

70,000 members in 57 countries (in 1955). In 1956-IADL listed affiliates in 68 countries and correspondence with 80 countries. The exact number of the membership or of the IADL Council has never been revealed. The Council determines the number of votes assigned to collective members participating in congresses, but the congress fixes the number of Council members with "regard to the

C. Claimed Strength: Cont'd

development of the association and of the respective sections and international associations". The highest number of national sections represented at Council meetings was 32 (at Brussels in 1956). Congress attendance is given in figures including "observers" and "guests"; there is a tendency for individual lawyers to attend (especially many prominent jurists have been drawn to "name" congresses such as "Congress for the Defense of Civil Liberties")-so it is impossible to determine the exact number of individual or collective members of the IADL.

D. Official Publications:

(all printed by CEPI, 82 Rue Bodeghem, Brussels, Belgium since 1949.)

Law in the Service of Peace - (sent to 39 countries, 35 universities, 19 of which are in the USA, 16 western libraries)

IADL Commentaries - sometimes called IADL Bulletins.

In addition, IADL publishes many pamphlets, papers, studies, and treaties on specific subjects of current interest such as:

Analysis of European Defense Community.

French Opposition to Attempts to Discriminate in Civil Service.

Study on the Rights of Defense.

The Rehabilitation of the Hitlerite War Criminals and the Project of the European Army.

Repression in North Africa.

Facts and Documents Concerning the War in Korea.

Lawyers Take a Stand Against Experiments With and Use of Atomic Weapons.

Clemency Appeal of Ethel and Julius Rosenberg.

International Law and Preparation of Atomic Warfare.

THE INTERNATIONAL UNION OF STUDENTS (IUS)

NOTE

The attached report on the International Union of Students (IUS) appears in two sections.

Section I, pages 1 through 42, is primarily based on information available prior to the Fourth IUS World Student Congress which was held in Prague, August 26 - September 3, 1956, and, with a few exceptions, lists the organizations affiliated with and "parallel" to the IUS prior to this Congress.

However, as a result of the new membership provisions adopted by the Fourth IUS Congress in the form of constitutional amendments, the current status of the great majority of the organizations listed in this section has now changed, at least "nominally". The comparatively small, Communist-front student groups that represent only a fraction of the students in their respective countries in the free world have, apparently, "formally" and voluntarily disaffiliated from the IUS (or, possibly, have been disqualified from IUS membership, with their consent) "in the interest of world student unity" and in order to remove any obstacle that might prevent the larger, more influential and nationally representative student unions in their respective countries from affiliating with the IUS, on however limited a basis. It should be noted that the Australian and Austrian IUS affiliates candidly told the Fourth Congress that they had disaffiliated from the IUS for precisely the aforementioned reasons. (See pages 7 and 9 of Section I.)

In view of the fact that such disaffiliations were not the result of dissatisfaction with the partisan political policies of the IUS -- as has been true in the case of previous disaffiliations -- but rather in order to enable the IUS to realize the greatest possible success from its latest tactical endeavor to implement the IUS unity policy, in compliance with the current CPSU united-front policy, it is felt that the disaffiliations of such organizations are more "nominal" than real and that they will continue to give their fullest possible support to IUS policies and activities in their respective countries.

~~SECRET~~

~~SECRET~~

Section II, pages 43 through 51 , lists the organizations accorded "delegate" status at the Fourth IUS Congress and, consequently, now apparently regarded as constituting the current IUS affiliates. Those organizations not listed in Section II but listed in Section I as "affiliates" should now apparently be regarded, at least nominally and formally, as IUS "parallel" organizations.

Section II also contains a brief resume of the constitutional amendments regarding the new IUS membership provisions.

August 1946: 1,500,000 student members in 38 countries
August 1951: 5,336,060 student members in 89 organizations
in 71 countries
November 1955: "about 6,000,000" student members in 72 countries
September 1956: 3,263,360 students in 36 "full" member organiza-
tions, as well as four "associate" member
organizations with a combined membership of
30,000 university and college students.

(Note: According to a Czechoslovak News Agency, CTK, report of September 3, 1956, this claim was made officially by the IUS at its Fourth World Student Congress in Prague. Confirmation of this claim is being sought. This claim, if correct, possibly represents a recent IUS decision to preclude from IUS membership minority organizations from countries in which a national union of students represents the majority of the students.)

Caveat: Not to be confused with the General Union of Muslim Students of Algeria (Union Generale des Etudiants Musulmans Algeriens, UGEMA) which is not affiliated with the IUS.

* These organizations were described as IUS "affiliates" prior to the Fourth World Student Congress of the IUS (Prague, 26 August -3 September 1956). Subject to the limitations expressed in "Note" on cover page of this report, only the organizations listed in Section II, pages 43 through 51 are apparently currently regarded as "full" or "associate" IUS member organizations with voting rights. As a result, those organizations not listed in Section II as IUS affiliates, but so described in Section I, should now apparently be regarded, at least nominally and formally, as IUS "parallel" organizations until their formal status is more clearly defined. (They may, for example, be affiliated in "consultative" status with the IUS. See page 53 for description of the provisions of this new type of non-voting IUS membership)

It should be noted that, prior to the Fourth IUS Congress, the IUS provided for two types of affiliation: "full" and "associate". "Associate" members could formally limit their affiliation in special bi-lateral agreements to certain types of specified "a political" activities (i. e. sports, faculty events, travel, cultural exchanges, etc.) and disavow themselves from all other IUS activity, particularly of a partisan political character. "Full" member organizations, on the other hand, had no limitations on their affiliation and accepted and supported all IUS policies and activities. The criteria for "full" and "associate" membership were changed at the Fourth Congress. See pages 52 to 54 for description of the revised provisions for such membership.

** Parallel organizations are those which generally support the objectives and activities of the IUS but which are not definitely known to be formally

4. AUSTRALIA

Note: The three Australian organizations listed below, as well as the Austrian Union of Democratic Students, were all "full" members of the IUS until sometime in 1955, at which time they announced their disaffiliation. The August 25, 1956 Czechoslovak News Agency, CTK, reports that the IUS Executive Committee described "these actions, as...being guided by the interest of strengthening student unity in these countries... (and as) a positive contribution toward the removal of the obstacles which hitherto had prevented the development of better cooperation between the IUS and the national unions of these countries."

While these organizations are "technically" no longer formally affiliated with the IUS, their disaffiliation may be more nominal than real in view of the fact that they withdrew only to help the IUS achieve its aims and not because of dissatisfaction with the partisan political policies of the IUS, as did others. Furthermore, since the National Union of Australian University Students has refused to reenter into even a very limited type of affiliation with the IUS, the Australian organizations listed below will probably continue to support the IUS and its activities in any way possible.

The Council then added, "We believe that the Executive and the Secretariat should do everything in their power to see that this mistake and its consequences are put right and the way opened to negotiations and cooperation between Yugoslav students and the IUS." However, as of August 1956, the Student Section of the People's Youth of Yugoslavia has declined to reaffiliate with the IUS./

97. WORLD FEDERATION OF DEMOCRATIC YOUTH

[Note: The IUS is an "international autonomous affiliate" of the World Federation of Democratic Youth.]

98. UNDESIGNATED AFFILIATIONS

In view of the fact that the IUS has not published a complete list of its affiliated organizations since 1951 and in view of the fact that it has, on occasion, failed to identify by name organizations admitted to membership since that time, the above list may contain some inadvertent omissions or inaccuracies. Confirmation of the current accuracy of the information listed above is being sought.

99. UNDESIGNATED PARALLEL ORGANIZATIONS

In addition to the organizations listed above, the WFDY and the IUS can usually count on a host of small but active organizations that are usually set up locally, regionally and nationally by leaders of local affiliates to "prepare" for some important upcoming event. For example, efforts are now being made to set up a network of "preparatory committees for the Sixth World Festival of Youth and Students" that is to be held in Moscow in August 1957. Particular effort is being made to attract the support and participation of non-Communist organizations and unaffiliated young people in general. These "committees" may have been newly created or may be the same ones that were set up to "prepare" for the Fifth World Youth Festival that was held in Warsaw in August 1955.

While these "preparatory committees" are ostensibly set up on an ad hoc, temporary basis, great effort is made to convert them into permanent affiliates or "parallel" organizations. Such efforts have met with some success in many countries, particularly in the underdeveloped areas where "Rural Youth Committees" and "Committees in Defense of the Rights of Youth" that were set up in 1954 to prepare for international conferences still continue to exist.

It should be noted, however, as indicated on pages 7 and 8 of Section I, that the V.O.S. (a) apparently disaffiliated from the IUS sometime in 1955, in the hope of contributing toward the establishment of some sort of cooperative relations between the National Union of Austrian Students and the IUS, and (b) decided in August 1956 to rechange its status and "establish cooperation with the IUS" since the National Union of Austrian Students had refused to have any contacts with the IUS. B. Resume of the Constitutional Amendment Adopted by the Fourth IUS Congress regarding IUS Membership Provisions:

1. "Full" Membership:

As amended by the Fourth IUS Congress (August 26-September 3, 1956), only the following organizations can now qualify for "full" membership in the IUS:

a. All "national unions of students", which the IUS Constitution defines as organizations:

"(1) whose governing bodies are democratically elected by the members of the organizations;

"(2) which are open to all the students of the country concerned without regard to their sex, economic circumstance, social status, political conviction, religion, color or race; and

"(3) which represent the majority of students of their country organized on the basis of the two preceding principles."

b. Other organizations, such as:

"(1) national coordinating committees uniting the various student organizations of the country concerned where no national union exists;

"(2) one or more student organizations of a country where neither a national union nor a coordinating committee, as defined above, exist; and

"(3) representative student organizations abroad which unite the largest number of students of the country or countries concerned."

2. "Associate" Membership:

a. "Associated members shall be admitted, such members to be national unions of students who, within the limitations of their own constitutions, accept limited obligations and in return receive certain rights of associated membership. These obligations and rights shall be determined by agreement between the IUS Executive Committee and the organization concerned and must be ratified by the IUS Congress."

3. "Consultative" Status

a. According to the amended IUS constitutional provisions,

"(1) Organizations which do not qualify for full or associated membership but which desire to have working relations with the IUS may apply for and accept consultative status with the IUS.

"(2) They shall be:

"(a) Student organizations of a specialised character: cultural, sport, relief, faculty, press and travel. They shall be entitled to give advice and participate in the work of relevant departments and specialised agencies of the IUS; to take part in activities related to their specialities and participate without voting rights in the IUS Congress on matters relevant to their organizations.

"(b) Organizations of students studying abroad which are not eligible for membership and whose application for consultative status is not opposed by the IUS member organizations in the respective countries.

"Such organizations may take part in the IUS Congress without voting rights; seek the assistance of the IUS for special help in cases of need and participate in activities of the IUS."

4. Important New "Miscellaneous" Constitutional Provisions:

(a) As amended by the Fourth IUS Congress (August 1956), the IUS Constitution now provides that:

(1) the IUS "Congress shall meet at least once in two years" (instead of "at least once in three years");

(2) the IUS Council be abolished;

(3) The Congress elect the Executive Committee -- consisting of "the President, Vice Presidents, Secretaries, Treasurer and Ordinary Members" -- biennially, instead of annually by the Council.

(4) the Congress exercise greater control over the Executive Committee by expressly limiting its functions, for the first time, to "the carrying out of the policies, decisions and projects adopted by the IUS Congress;"

(5) the Executive Committee, in turn, exercise greater supervisory functions over the "practical activities" of the Executive Secretariat--consisting of the officers of the Executive Committee mentioned above without the Ordinary Members--by expressly adding the new proviso that the "activities of the Secretariat and of the various departments of the IUS shall be supervised by the Executive Committee and the Secretariat shall submit regular reports of its work to the Executive Committee;"

(6) the position of a "Permanent Secretary" (or Secretary General) be abolished since no provision was included for his election by the Executive Committee, as was formerly the case;

(7) the five-member "Finance Committee" (which includes the IUS Treasurer) be elected by the Congress (and not the Council) to "super-vise the financial business of the IUS;"

(8) the Executive Committee, however, retain the authority to "appoint the official auditors" of the IUS;

(9) the Congress "respect the sovereignty and autonomy of member organizations of the IUS", a new provision;

(10) that, instead of one vote per delegate as in the past, an equal number of votes now be given to each IUS affiliate described in section B-1, page 52, except where such affiliates consist of "one or more student organizations of a country where neither a national union nor a coordinating committee, as defined above, exist". In this instance, the IUS Constitution expressly provides that "the total votes of the delegations of member organizations affiliated to the IUS in any country shall not exceed the votes" accorded IUS-affiliated national unions, coordinating committees or representative overseas student organizations.

(11) the "Extraordinary Congresses of the IUS may be convened at the request of not less than 1/3 (instead of 1/5) of the total number of full and associate member organizations of the IUS;" and that

(12) "the quorum (of the Congress) shall consist of delegations of 2/3 of the total number of full and associated member organizations of the IUS" (instead of "a majority of delegates entitled to attend the Congress, provided this number represents a majority of affiliates of the IUS from 2/3 of countries participating in the IUS").

Note: The Union includes the following organizations:

(1) The League of Albanian Pioneers

(2) The Albanian Sports Federation

(3) Student Section aka

League of Albanian University Students

* The WFDY now provides for two types of affiliation - full and associate. Associate members formally limit their affiliation by special bi-lateral agreements to certain types of specified activities (i.e. sports, cultural exchanges, etc.) and disavow themselves from all other WFDY activity, particularly of a partisan political character.

** Parallel organizations are those which generally support the objectives and activities of the WFDY but which are not definitely known to be formally affiliated with such organization.

In view of the fact that the WFDY has not published a complete list of its affiliates for many years, particularly since the mass withdrawals of non-Communist organizations occurred in 1947, 1948 and 1949, and in view of the fact that the WFDY frequently failed to identify by name the organizations that did affiliate or disaffiliate, the above list may contain some inadvertent omissions or inaccuracies. Confirmation

of the current accuracy of the information listed above is, therefore, being sought.

The above list, for example, does not contain the names of the "thirteen youth organizations" that the WFDY reports were admitted as members in August 1956 by the Council at its meeting in Sofia but which the WFDY failed to identify by name.

103. UNDESIGNATED PARALLEL ORGANIZATIONS

In addition to the organizations listed above, the WFDY and the IUS can usually count on a host of small but active organizations that are usually set up locally, regionally and nationally by leaders of local WFDY-IUS affiliates to "prepare" for some important upcoming event. For example, efforts are now being made to set up a network of "preparatory committees for the Sixth World Festival of Youth and Students" that is to be held in Moscow in August 1957. Particular effort is being made to attract the support and participation of non-Communist organizations and unaffiliated young people in general. These "committees" may have been newly created or may be the same ones that were set up to "prepare" for the Fifth World Youth Festival that was held in Warsaw in August 1955.

While these "preparatory committees" are ostensibly set up on an ad hoc, temporary basis, great effort is made to convert them into permanent affiliates or "parallel" organizations. Such efforts have met with some success in many countries, particularly in the underdeveloped areas where "Rural Youth Committees" and "Committees in Defense of the Rights of Youth" that were set up in 1954 to prepare for international conferences still continue to exist.

76. YUGOSLAVIA

Note: The WIDF Council expelled its Yugoslav affiliate -- the Organization of Yugoslav Women -- in November 1949, in line with the CPSU policy after the Tito-Cominform rift. Now, again conforming to the current CPSU-Yugoslav CP rapprochement, the WIDF Council, at its meeting in Peking in April 1956 "... at the request of several of its members," examined its previous decision and "... recognized that this decision was unjust." It "unanimously decided to revoke it." As of August 1956, the Organization of Yugoslav Women had not accepted the WIDF invitation to reaffiliate. 7

77. UNDESIGNATED AFFILIATIONS

The WIDF Council, elected by the World Congress of Women in June 1953, included reserved "slots" for undesignated members from Peru, Thailand and Trieste and designated the following members from Portugal: Maria SILVESTRE, Julia COSTA, Ester DURSO and Helena SA. It is, therefore, assumed that the WIDF has an unidentified affiliate and/or parallel organization in each of these countries.

78. ADDENDUM

Since the preparation of the above listing, the following "parallel" organizations have also been identified.

BRITISH GUIANA

- a. Women's Progressive Organization

H. Members of the WIDF Control Commission and Council:

WIDF Control Commission *
(June 1953 -)

Members: Irma SCHWAGER (Austria)
Jeanne MULLIER (Belgium)
Antonia TUMOVA (Czechoslovakia)
Ann JOHN (The Netherlands)

Treasurer:
Dida MIHALCEA (Rumania)

WIDF Council *
(June 1953 -)

* According to the provisions of the WIDF Constitution, each national affiliate of the WIDF designates its candidates for Council Membership or Deputy Membership on the basis of the total national population figures: one member and one deputy per affiliate from each country whose population does not exceed 5 million; two members and two deputies per affiliate from each country whose population does not exceed 30 million; three members and three deputies per affiliate from each country whose population does not exceed 75 million; four members and four deputies per affiliate from each country whose population does not exceed 140 million; and five members and three deputies per affiliate from each country whose population exceeds 140 million.

The Council is elected by the WIDF Congress from a slate of candidates submitted by each national affiliate.

The Control Commission members are named by the Congress from the Council members who are not members of the Executive Committee.

The above-listed officers of the Control Commission and Council will continue to serve in their designated capacities until the next WIDF Congress meets and reelects new members. The last WIDF Congress was held in Copenhagen, June 1953.

Address: 9 Tai Chi Chang,
Peking, China

2. International Committee for the Peaceful Solution of the German Problem
Address: a. Rue des Pyramides,
Paris, France
b. East Berlin

- *3. The Asian Solidarity Committee
Address: c/o Dr. Choithram Gidwani,
Western Court,
New Delhi, India

C. Claimed Membership:

In describing strength, The World Peace Movement, otherwise known generally as the Partisans of Peace Movement, does not quote membership figures but claims to "represent" well over 600,000,000 people (of whom about ninety percent are in the Soviet bloc). This number is based on signatures collected in "signature campaigns",

* The Asian Solidarity Committee was created at the Conference of Asian Countries in New Delhi, India, in April 1955 (initiated by the WPC) and claims now to be an independent organization. However, in effect, it is a branch of the WPC and is expected to take over many of the WPC activities in the oriental regions. Local Solidarity Committees have been formed in China, Japan, India, and the USSR and "preparatory committees" in most of the other oriental countries with the announced intention of establishing permanent committees in all of these countries.

C. Claimed Membership: (cont'd)

a major type of action program of the World Peace Movement and its affiliates. Two such campaigns were the results of resolutions adopted by the conventions of this movement, one in Stockholm in March, 1950, and one in Vienna in January, 1955. They are the so-called Stockholm Appeal against the Use of Atomic Weapons and the Vienna Appeal against the Use of Atomic Weapons.

The Stockholm Appeal was publicized as having gained 482, 482, 199 signatures to the following declaration:

"We demand the absolute banning of the atom weapon, arm of terror and mass extermination of populations.

"We demand the establishment of strict international control to ensure the implementation of this banning measure.

" We consider that any government which would be first to use the atom weapon against any country whatsoever would be committing a crime against humanity and should be dealt with as a war criminal.

"We call on all men of good will throughout the world to sign this appeal."

The Vienna Appeal, made in January, 1955, claimed to have attracted 655, 963, 811 signatures, although its makers originally had set a goal of one billion such signatures. The appeal read as follows:

"Certain governments are today preparing to let loose atomic war. They are trying to make the peoples accept it as inevitable. The use of atomic weapons would result in a war of extermination.

"We declare that any government that lets loose atomic war will forfeit the trust of its people and find itself condemned by every people of the world. Now and in the future we shall oppose those who organise atomic war.

"We demand the destruction of all stocks of atomic weapons wherever they may be and the immediate stopping of their manufacture."

In contrast to the indefiniteness of figures for the World Peace Movement as a whole, the figures for leaders of the Movement - i. e., members of the World Peace Council (WPC) and its regional branches - are precise. The WPC consists of 452 members from 71 countries. There are 15

C. Claimed Membership: (cont'd)

representatives on the Liaison Bureau for Asian and Pacific Regions, and 37 members on the Committee for the Peaceful Solution of the German Problem. The Asian Solidarity Committee consists of some 25 members and has local committees of varying numbers throughout the area. Membership, by section, is listed later in this paper.

COMMUNIST SOCIETIES OF FRIENDSHIP AND CULTURAL RELATIONS

This paper lists in section A, the Soviet, Chinese, East European satellite, North Korean and North Vietnamese organizations which support and guide Communist friendship and cultural relations groups throughout the world. These friendship/cultural groups are widely exploited by the sponsoring Soviet, Chinese, etc., organizations as propaganda outlets in the free world. Within the Communist bloc countries, the Soviet Union appears to be the only nation which maintains societies of friendship in the other Communist countries. The satellite countries do not, as of this date, have programs whereby they sponsor societies of friendship within each other's territories. Some mention has been made of the possibility of founding a society of friendship with China in the Soviet Union, but there is no evidence as yet that it has been established.

In section B are listed all those societies of friendship or cultural relations promoted by the Soviet, Chinese, East European satellite, North Korean and North Vietnamese sponsoring organizations listed in section A. The identity of the sponsoring Communist country is shown in the title of each friendship/cultural relations society or is otherwise indicated.

It might be noted here that membership in such organizations does not always indicate Communist Party membership or even sympathy with Communism. In some cases in non-Orbit countries, the societies reportedly have listed as their honorary officers, high-ranking government officials or other prominent citizens without having requested permission to do so. In other non-Orbit areas, prominent government officials have permitted their names to be listed as honorary officers of the friendship societies. In many cases this was not done for reasons of Communist sympathy, but for reasons of protocol because of the quasi-official nature of the friendship society.

There are also incidents where individuals who are students of Russian literature, history, art, etc., who likewise have no interest in the political purposes of the friendship/cultural relations societies, join one of these groups in order to be able to use its library which is sometimes better supplied with Russian publications than any other local institution.

~~S E C R E T~~

In section C are listed a group of miscellaneous Communist-sponsored friendship societies which arose for a variety of political reasons. In late 1953 and early 1954, for example, when it became clear that Carlos CASTILLO Armas forces were organizing and would attempt a revolution against the pro-Communist ARBENZ regime in Guatemala, a crop of societies of friendship with Guatemala sprang up in several Latin American countries. Probably the majority of these groups are now inactive. A central directive may have been responsible for the almost simultaneous appearance of these groups, although they appeared to be set up and managed by the local Communist Party.

A. COORDINATING BODIES:

Listed below are the Soviet, Chinese, East European satellite, North Korean and North Vietnamese organizations which sponsor, support, guide and exploit as propaganda centers the Communist-dominated friendship and cultural relations societies found throughout the free world.

1. All-Union Society for Cultural Relations Abroad (Soviet) (Vsesoyuznoye obshchestvo kulturnoy svyazi zagranitsey, VOKS)

Office Locations: Moscow, and Leningrad, USSR
Editorial Office: Ulitsa Kalinina, 16, Moscow, K-9, USSR

Official Publications: The VOKS Bulletin, a bi-monthly, published in several languages.
Moscow News, a bi-weekly, published in French and English.
Numerous news letters and a great number of books on all aspects of Soviet life.

Executive Officers:

Chairman of the Board: Andrey I. DENISOV
First Deputy Chairman: V. J. YAKOVLEV

Subsidiary Organizations:

Within the Soviet Union, each federal republic has its own organization for cultural relations (OKS), each forming a part of the larger VOKS. Each OKS apparently follows a program which reflects local interests and specific foreign affinities. The Ukrainian OKS, for instance, is especially interested in Canada where there is a large Ukrainian emigre group. Wherever it has been available, information about the several OKS organizations has been listed under the Soviet Union country division of section B.

Abroad, both the local Communist Party as well as the local VOKS representative appear to provide direction and assistance to the society of friendship with the Soviet Union, even though an attempt is usually made for the friendship

Communist Party. Since, however, the societies of friendship with the Soviet Union receive much (probably most) of their material support from VOKS and since they serve as VOKS' primary propaganda outlets abroad, they are listed as closely related organizations.

2. The Association for Cultural Relations with Foreign Countries (ACRFC), Headquarters address: Peiping, China. This organization, formed in May 1954, appears to be the Chinese counterpart of the Soviet VOKS.

Executive Officers:	CH'U T'u-nan
Vice Chairman:	TING Hsi-lin
	YANG Han-sheng
	CHAO I-min
Secretary General:	CH'EN Chung-ching
Deputy Secretary General:	WU Hua-chih

The ACRFC is probably subordinate to the United Front Department and to the Propaganda Department of the Central Committee of the Chinese Communist Party. Through the ACRFC the Chinese Communist Party maintains an active relationship with societies of friendship with China which are located in several countries of the free world. The ACRFC should not be confused with the Liaison Bureau for Cultural Relations with Foreign Countries, a Chinese government organ under the State Council, which deals directly, on a government to government basis, with counterpart organs of the Soviet bloc countries in handling exchanges of cultural delegations between those countries and Communist China.

3. Albanian Committee for Cultural Relations with Foreign Countries

This is possibly the Albanian counterpart of the Soviet VOKS. If so, it presumably supports societies of friendship with Albania which are located in non-Orbit countries.

4. Committee for Friendship and Cultural Relations with Foreign Countries (Komitet za priyatelstvo i kulturni vruzki s chuzhbina)

Address: Boulevard Ruski 5,
Sofia, Bulgaria

Probably the Bulgarian equivalent of the Soviet VOKS.

Executive Officers:

Chairman: Rada TODOROVA

Vice Chairman :
(or Secretary) Chudomir PETROV

(In the case of Czechoslovakia, it appears that responsibility for friendship and cultural relations with abroad is divided between the Ministry of Culture and the Czech Foreign Institute, with the latter concentrating particularly on Czechs residing in foreign countries.)

5. The Society of Cultural Relations Abroad
(Gesellschaft fuer Kulturelle Verbindungen mit dem Ausland)

(This appears to be the East German counterpart of the Soviet VOKS.)

Executive Officers:

Director: Dr. WIESE (first name unknown)

6. Institute for Cultural Relations (Hungarian)
(Kulturkapcsolatok Intezet)

Probably the Hungarian equivalent of the Soviet VOKS. Administratively this organization is under the Ministry of Foreign Affairs. Its four principal functions are to:

1. popularize Hungarian culture in foreign lands
2. popularize foreign culture in Hungary
3. assist in the implementation of cultural agreements
4. foster scientific and artistic relations

~~SECRET~~

7. Korean Society for Cultural Relations with Foreign Countries

Possibly the North Korean counterpart of the Soviet VOKS.

Executive Officers:

Vice Chairman: YUN SONG-POK

8. The Department of Cultural Relations with Foreign Countries

This is possibly the North Vietnamese counterpart of VOKS.

Executive Officers:

Department Head: Nguyen Duc Quy

Deputy Department

Head: Vu Quoc Uy

9. Committee for Foreign Cultural Cooperation (KWKZ)
(Komitet Wspolpracy Kulturalnej z Zagranica)

Polish counterpart of the Soviet VOKS

Executive Officers: Adam RAPACKI

Secretary General: Jan Karol WENDE

Assistant Secretary

General: Wojciech CHAS

10. Rumanian Institute for Foreign Cultural Relations
(Institutul Romn pentru Relatiile Culturale cu Strainatatea)

Possibly the Rumanian counterpart of the Soviet VOKS.

Executive Officers:

Honorary President: M. MACAVEI

President: Professor Mihail RALEA

Vice President: Iosif BOGDAN

Director: Alexandra ROSIANU

~~SECRET~~

11. Commission for Cultural Ties with Foreign Countries
Address: Bircaninova #6, Belgrade
Probably the Yugoslav counterpart of the Soviet VOKS.

Officers:

President:	Marko RISTIC
Secretary:	Ivo FROL
