MONTHLY REPORT

TECHNICAL SERVICES BRANCH

ENGINEERING STAFF

1 October - 31 October 1966

1. As a result of the [REDACTED] Project and the President's Far East trip, FTS was flooded with priority requests for crystals and for transceiver sets. At one time T&I was processing five 1A priorities simultaneously. There was the usual question as to who had the highest priority, but all deadlines were met. Two technicians are receiving OJT on [REDACTED] equipment and processing for early November TDY to assist with the installation.

2. Although the number of KY-3 equipment troubles remain relatively high (usually faulty modules), the KY-3 system equipment available time for all 90 units for September was approximately 99.7%.

3. Two Electronic Technicians and one Wire Equipment Technician entered on duty this month, and two Electronic Technicians resigned. Four technicians departed PCS, twenty-two are processing for PCS. Seven techs were on TDY during the month, and thirty-three were in various stages of training.
