MEMORANDUM FOR: Acting NIO for South and Southeast Asia and Africa

SUBJECT : Cuban Withdrawal from Angola

Bob -

Here is a rundown of FBIS coverage most likely to yield information on the Cuban withdrawal from Angola.

Normally "hot" material from our field bureaus would be carried by the FBIS Wire Service, other current reports would be printed in our Daily Report and less perishable items would appear in the JPRS serials. But we could arrange special courier service if that would be helpful, and if our sources are productive. As soon as you have special requirements, we'll implement them. In the meantime our field and Headquarters units have been alerted to process promptly all indications of compliance. will represent me at your meeting tomorrow.
