

5 October 1956

MEMORANDUM FOR THE RECORD

SUBJECT: Monitoring [redacted]

25X1

1. [redacted] of NEA had requested this division to consider the possibility of monitoring [redacted] in conjunction with our [redacted] Project. Standard machines would be purchased with [redacted]. On 3 October 1956 the undersigned talked with [redacted] on the phone and learned that two manufacturers, [redacted] had encountered technical difficulties with the [redacted]

Because the [redacted] could not generate enough enthusiasm for the [redacted] model alone, thus this idea is being laid aside until another requirement comes through for monitoring an [redacted]. The contractor working on the project will be advised of this, and all work will resume on the project as originally outlined.
