SUBJECT: Telecon Report - AN/PAC-2

1. On 20 August 1959 a telephone conference was held with Mr. William Dravneek, Ft. Monmouth, N. J., to discuss the delivery of the AN/PAC-2 equipment to this Agency. Mr. Dravneek stated that a review of the requirements levied by other agencies for this equipment is presently underway. This was necessary because of a complete turnover of personnel previously handling this program. Mr. Dravneek informed the writer that he should contact a Mr. John Pritle, OC-SIGO, Code SIG-RD-6-F, who is now in charge of fulfilling all obligations of supplying other agencies with the subject equipment. Mr. Pritle's phone number is Extension 72055, and he is located in the Pentagon Room BE-1029A.

2. The writer discussed this problem with [Redacted] who stated that if I had no objection he would undertake complete coordination of supplying necessary information to Ft. Monmouth for delivery of this equipment. [Redacted] speculated that this equipment should be delivered to the warehouse in approximately one week to ten days.
