MEMORANDUM FOR: Chief, TSS
ATTN: Chief, TSS/TA

SUBJECT: (Request for Training Mock-up of
[redacted] System)

1. In order to implement a field training program for the planned use of the [redacted] system, it is requested that TSS furnish SR Division a mock-up of the system now under development. Although the mock-up of the envisioned system may vary from the developed hardware, it is important to have system components which will allow realistic training exercises under field conditions. It is necessary to have all components (including collection, reporting, and power units) represented by objects of appropriate weight and size, with simulated switches, dials and cable-connections. A short set of instructions for "field" installation, together with photographs of the mock-up system, would be most desirable.

2. It is requested that the mock-up of the [redacted] system be delivered to [redacted] on or about 1 May 1958. For further information on this request or problems related to R&D requests, please contact [redacted], the present SR technical requirements officer for the [redacted] Project.

[redacted]
Chief, SR Division

Distribution:

- Orig & 1 - Addressee
- 1 - D/CO
