Dear

[Redacted]

25X1

It is requested that the termination date of Contract No. 614 be extended to August 31, 1959.

The delay in completion of the final report was due to an abnormal workload in report editing, typing and reproduction.

Indications are that we will be able to accomplish the program within the total contract price; hence this request for additional time will not affect the total contract price.

Sincerely yours,
