RS-16 Agent Set Maintenance Training)

1. High speed agent radio sets, RS-16, are being fabricated for operational use. Six prototype agent sets have been delivered. These units will be committed to operational use [redacted] shortly after the first of the year. Twenty service model RS-16 sets will be delivered early in 1959.

25X1

2. At the present time there are no trained personnel to service and maintain this equipment. It is recommended that a training program for personnel to maintain the RS-16 sets be established. Operating and maintenance manuals are available for use in such a training course. Arrangements may also be made with this office to train an instructor for the course. Please contact [redacted], if further information is required.
