REFERENCE: Memorandum No. M-42556

1. Reference is made to the contractor's letter and its attached reference dated 3 April 1959 wherein permission is required by the company to circulate detailed descriptions of the items produced under the subject task orders.
2. Approval of this request cannot be granted to the company because of the numerous implications which may result from wholesale removal of promotional restrictions. However, the company should be instructed that individual and specific requests to divulge information on any of the items produced under the subject tasks will be considered for approval.
3. Future requests should include (1) the name of the organization to which information will be given, (2) whether or not an inquiry was made about a similar type of equipment, or (3) if the company wishes to approach an organization which may be interested in the items produced under the subject tasks.
