ATTN: Chief, Supplemental Programs Division, OC  
Chief, ELINT Activities Branch

Chief, Engineering Division, OC

Contract RD-79, T.O. 7

1. The attached letter, with accompanying proposals, from [redacted] outlines the requirement for increased funds under Task Order 7, Contract RD-79 and proposes Phase F under the same task.

25X1

2. Our cognizant engineers have carefully reviewed the technical information and consider the proposals reasonable and necessary. The proposed Phase F has become necessary at this time to provide equipment for isolation between the record head and the input to the recorder as a result of initial design limitations in the MP-10737 recording equipment. The proposed increase of funds covers the cost of correcting the various incompatibility conditions resulting from the use of the VA-5 amplifiers, activity amplifiers, and MP-10737 recorders with the CS-3A airborne collection systems.

3. It is requested that the appropriate allotment number, to cover the request for additional funds, be furnished this Division in order to complete the necessary contractual negotiations as soon as possible. The contractor is ready to proceed with the work outlined in the proposals immediately.
