Dear Sir:

Confirming a telephone conversation on May 20, 1958, between Government and [redacted] personnel, you are advised that our quotation for Modification Kits for the 231-D and 16-F Transmitters can be reduced by \$4,937, making a new total price of \$36,001. A new cost breakdown is attached.

25X1

The reduction is possible since we were able to confirm, after our bid was submitted, sub-contract arrangements for a sizeable portion of the machine shop work involving the use of a turret lathe not available in our own shop.

Very truly yours,

25X1
