Chief, Research and Development Branch

Contract 605, Task Order 4, Delivery of Antennas

1. Under the terms of Contract 605, Task Order 4, [redacted] is constructing five four-foot parabolic dish antennas of the breakdown type, one solid four-foot dish antenna, and a set of spare feeds for the antennas, each covering the frequency range of 600 to 6,000 megacycles. [redacted] of SRS/EA has transmitted to your staff a cost breakdown and a description of these items in order to obtain a stock number.

2. Upon receipt of the antennas, it is requested that T+I inspect them for mechanical damage and completeness. Electrical testing is not required. After inspection the antennas should be placed in stock under Allocation Number 21, Code 2.

3. If more information about these antenna systems is required, please contact [redacted]
