Engineering Staff

Contract 605, Task Order 6, Decrease in Contract Scope

1. Under the terms of Contract 605, Task Order 6, [redacted] is constructing five logarithmically periodic antenna systems covering the frequency range of 30 to 1,000 megacycles. Under Amendment No. 1 of the subject task impedance values of 50 ohms unbalanced and 150 ohms balanced are required. Due to a change in the operational requirements for these antennas, the 150 ohm balanced impedance requirement no longer exists. This reduction in scope and its attendant reduction in contract price is covered in the attached contractor's letter dated 30 September 1959.

25X1
25X1

2. It is therefore requested that the Scope of Work paragraph of the contract be modified to read "Impedance: 50 ohms unbalanced". In addition the contract price should be reduced by one thousand eight hundred and sixty three (\$1,863.00) dollars to account for the reduction in engineering time resulting from the reduction in scope.

3. Conversations with the contractor's representatives have indicated that no overrun is anticipated in the future. Thus this Staff feels that a reduction in scope and cost is justified at this time. The association of the Agency with this contract is classified **SECRET**. The actual equipment and engineering reports, however, are **UNCLASSIFIED**. The project engineer for this work is [redacted]

Subject: Contract No. 605
Task Order No. 6
30-1000 mc Antenna
Decrease in Contract Scope
Submission of a Quotation for

Gentlemen:

Pursuant to a recent discussion between the technical representatives of the contractor and the buyer, concerning the subject task order, the contractor respectfully requests the deletion of the 150 ohms impedance balance requirement from the subject task order scope of work. The deletion of the above requirement will result in a decrease in the task order selling price of \$1,863. computed as follows:

Salaries:

Engr. 3525
Lab 1416
Drafting 1413
Model Shop

If the above deletion is acceptable to the buyer, it is requested that mutually acceptable contract amendment be issued indicating the 150 ohms impedance balance is no longer a contractual item and also adjusting the contract selling price accordingly.

The terms and provisions of the subject task order, except as modified above, shall still be applicable to the work being performed by the contractor.

Favorable consideration of the above request will be appreciated. Representatives of the contractor will be readily available in the event that further contractual or technical discussion is necessary. In matters pertaining to the above request and quotation, please address all inquiries to [Redacted] Contract Administrator, [Redacted]
