Establishment of Task Order, Contract 605

1. This Office has an operational requirement for a quantity of special logarithmically periodic antennas covering the frequency range of 1,000 to 10,000 megacycles. The attached proposal and cost analysis from [redacted] covers the development and fabrication of five of these antennas.

25X1

2. [redacted] has extensive laboratory facilities and experience in logarithmically periodic antennas and is believed to be capable of performing this work. We have carefully reviewed this proposal and it is considered acceptable.

25X1

3. It is requested that contractual action be undertaken to accept this proposal as Task Order 9 of Contract 605 in accordance with the attached documents. Attached is Requisition No. MSB 60-538 indicating that the allotment to be charged for this work is 0179-0060-0000. Funds in the amount of \$6,249.00 have been encumbered for this project. The association of the Agency with the equipment and the contract is classified SECRET; however, the actual equipment and engineering reports are UNCLASSIFIED. The project engineer for this work is Mr. [redacted]
