2. Mr. [redacted] was introduced and spoke in detail regarding the method by which the conclusions had been reached respecting Appendix I and the proposed Performance Summary and Potential Appraisal contained in the "7 August Program...." A summary of [redacted] remarks will be made available separately.

3. It was proposed that the name of the Working Group be changed to include the function of evaluation as well as rating. This proposal was rejected by reason of the confusion in terminology that would result.

4. The draft paper, "Decisions in Developing an Appraisal System", dated 21 November 1951 prepared by [redacted] was discussed and basically approved. It was felt that the sequence of points 1, 2, 3, and 4 should be reversed in order to make the presentation more logical. The paper will be discussed again when [redacted] is available to participate.

5. It was announced that there would be available for each member of the Working Group, probably during the first week of December, copies of a dozen or more government and industry Performance Rating forms and procedures. These would permit the members of the Working Group to study and compare systems of evaluation already in effect in order that the best selection might be made for a CIA system.

6. It was agreed that a list of qualities and ^{characteristics} ~~mechanics~~ appropriate and desirable for rating and evaluation purposes should be compiled principally from four sources:

- a. "The OSO ^{States} ~~Structure~~ and Efficiency Report"
