

CENTRAL BADGE, CREDENTIAL AND DOCUMENTATION SYSTEM

QUESTIONS

1. Instead of "interface" with Employee Status Master File, why not make it an integral part of this file?
2. Will DDP allow a DDS file to maintain alias documentation records issued by TSD for operational purposes?
3. Same for Central Cover?
4. Will this include all documentation issued overseas?
5. Will Physical Security Division and others cease to maintain their own records? If not, is it not duplication?
6. Same especially re IOS credentials?
7. In this system, who specifically will prepare the input, i. e. cards? OS or other office? If OS, who in OS? Physical Security Division (Badge Office) or SR&CD?
8. What are the "10 separate files on documentation" within OS which would no longer be maintained?
9. How would control in access to building by unauthorized persons be "enhanced," i. e. better than current system?
10. How much time (manhours) and/or money will be saved or what is made possible that otherwise without automation could not be accomplished?
