

19 July 59
 Phone conversation with Col. Ssexfield,
 JSD (Code 131, X 78878). He confirmed
 that General Young had stated two weeks
 would be the longest period personnel could be
 spared for the orientation course. Further, that
 one officer (himself?) who had been earmarked for
 going to trade craft course could not go. He wanted
 to know when we could get together to discuss
 course content - in 30 days?

I advised I must give another course start-
 ing Mon. 26 July. After it is finished, must
 work on War Plans Course, the 1st priority job
 Mr. Baird mentioned in our June meeting; hope
 that I can start talking with him in Sept., but
 the War Plans Course probably cannot be
 given until Nov - Dec. & the orientation for
 military personnel will have to follow it.

He asked for any background materials he
 could have to study now. I stated I would see
 what could be done.
