

MEMORANDUM FOR: Colonel White

21 November 53

SUBJECT : Airplane Travel

1. The previous instruction to Logistics by you on 22 October 1953 to draft something similar to the DD/I Notice has gone completely off the tracks. On 29 October 1953, Logistics submitted a memorandum. Jim Garrison concluded by recommending that no action be taken pending submission of the applicable proposed Agency Regulation. Further, it was pointed out in his memorandum that, in general, the Agency should not attempt to lower the standard of travel below that authorized by law in the Standardized Travel Regulations.

2. In the meantime in various discussions involving the Regulations Control Staff, Personnel, Comptroller, and Logistics, it was determined that this particular portion of the regulation should be prepared by Personnel. Jim Garrison advised me on 20 November that Personnel has set a tentative completion date of 1 January 1954.

3. I suspect the DD/A's Office is expected to be a mind reader since in effect nothing is being done to answer your earlier specific request. I would recommend that the attached proposed memorandum be forwarded to Personnel.
